

Lieve vriendjes,

Weet je wat ik nu ook nog ga missen?

Natuurlijk JULLIE!!!!

Maar ook dat we samen niet meer kunnen aftellen naar Pasen 😞!

Gelukkig zijn de Paasklokken toch nog even vlug
op onze school gepasseerd.

Maar willen jullie thuis toch nog wat verder aftellen?

Dan vind je hieronder een aftelkalender 😊.

Elke dag kan je weer een eitje versieren, net zoals in de klas.

En wanneer je bij het laatste eitje bent, is het PASEN!!!

Ik wens jullie alvast al een vrolijk Pasen en een fijne vakantie!!!

Zin om te tellen, eieren en verschillen te zoeken of te puzzelen?

Klik op het spelletje/start de PowerPoint die jullie op de site vinden en
spelen maar!

Hieronder vind je ook nog wat knutselideetjes, opdrachtjes met plasticine,
kleurplaten en werkblaadjes.

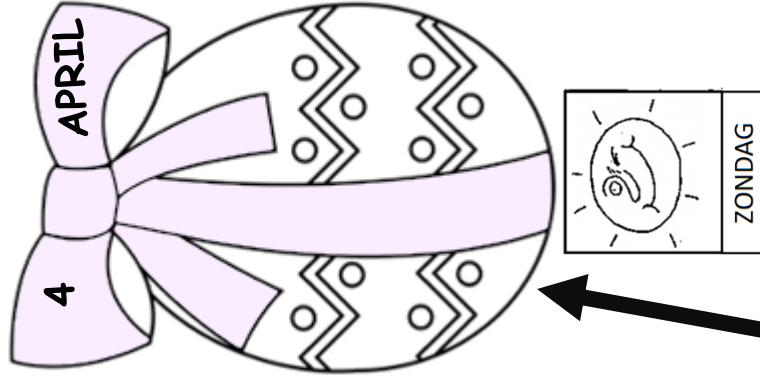

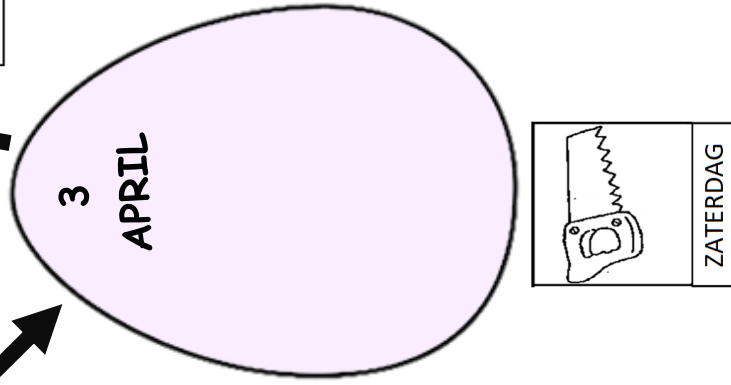

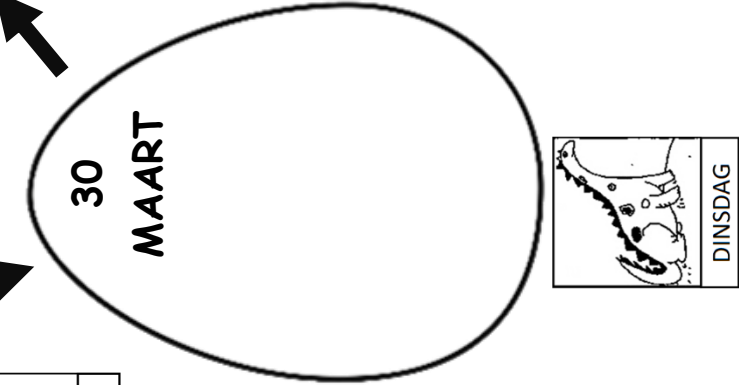

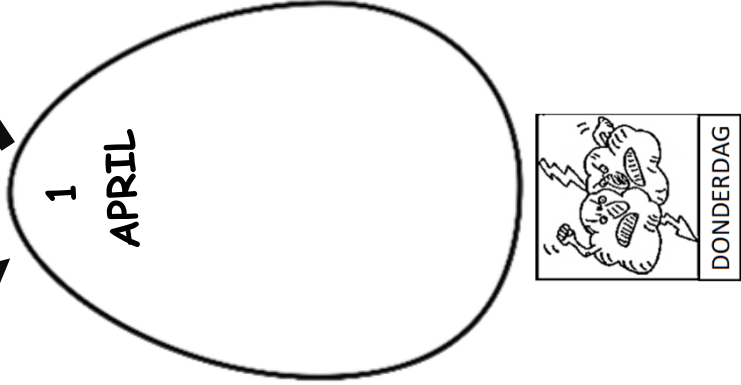

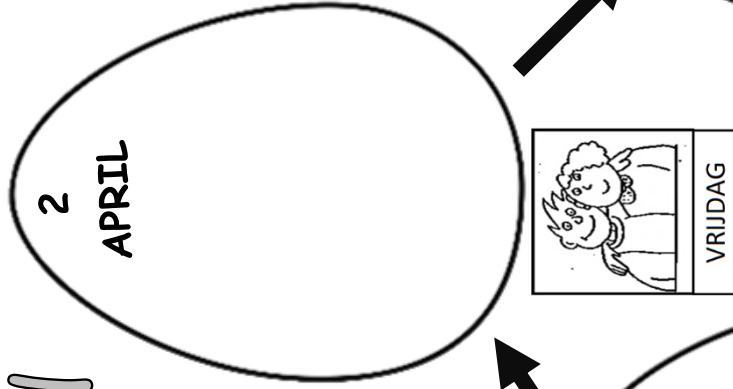

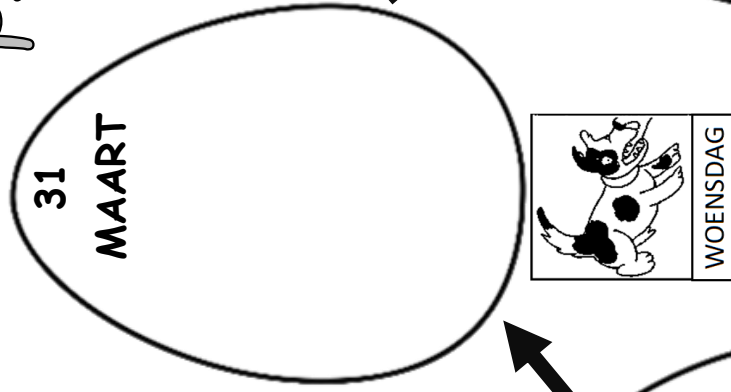

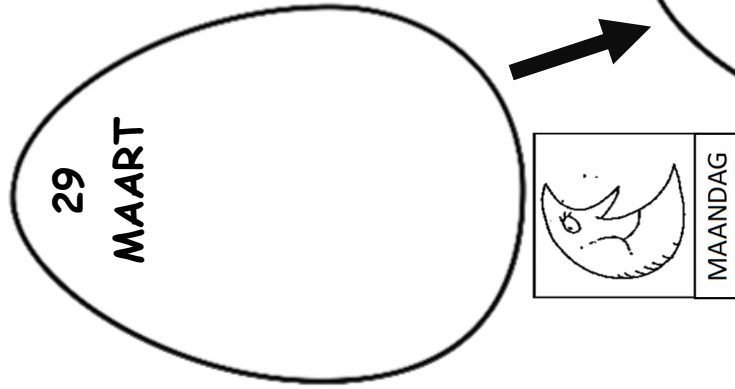

Veel plezier!

PASSEN

1. KNUTSELIDEETJES

Wil je graag een eitje knutselen voor de paasboom? 😊 Hieronder vind je heel wat ideetjes!

➔ Dit is mijn probeersel!

1. Knip een ei uit papier. (Je kan er eentje zelf tekenen of kiezen voor een sjabloon).
2. Verdeel het ei in verschillende vakken met papiertape.
3. Kleur de vakken in met stoepkrijt. Dop met het stoepkrijt eens in water en dan blijft het beter zichtbaar op het papier.
4. Laat het drogen en trek de tape er voorzichtig af.

Variatie: Kan ook ingeschilderd worden met verf!

Of zin om wat te klieren met scheerschuim en verf? Dat doet de juf ook wel graag!

Eerst moet je wat scheerschuim op de tafel spuiten met wat druppeltjes verf of voedingskleurstof. Daarna kan je met je vingers, een verfborstel, stokje, wattenstaafje ... leuke tekeningetjes maken.

Tip: Voedingskleurstof gaat wel niet zo heel goed van de vingers, misschien gebruik je dan beter een hulpmiddel!

Wanneer je klaar bent leg je er een papier op en maak je zo een afdrukje.

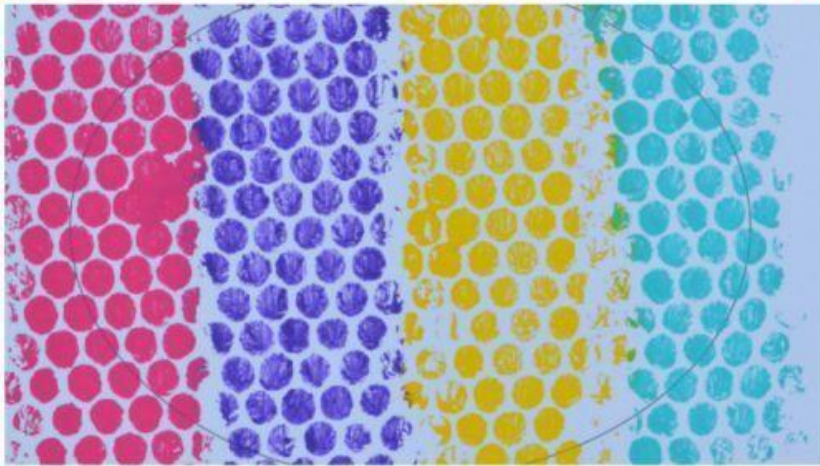

Het overtollige scheerschuim op je papier kan je eenvoudig verwijderen met een raamwisser, een deegkrabber (met een recht stuk) of iets gelijkaardigs 😊.

Even laten drogen, uitknippen en je bent klaar!

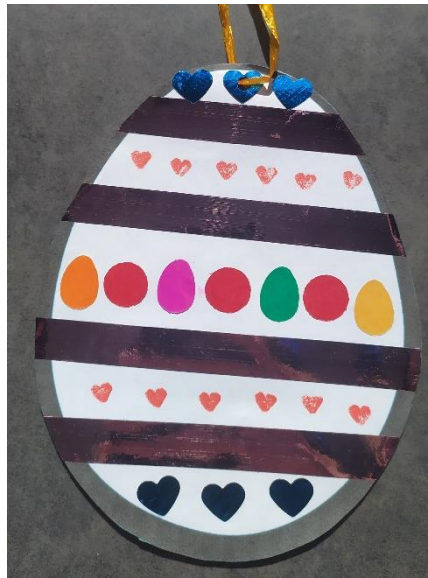

Stempelen met bubbelplastic
(noppenfolie)

Het gladstrijken van verfdruppels.
Ziet er ook heel stoer uit!

Ik heb zelf ook wat andere eieren voor mijn paasboom geknutseld 😊!

➔ Versieringen tekenen of plakken

Mocht je nog wat lekkere paaseitjes opeten 😊,
hou de papiertjes bij!

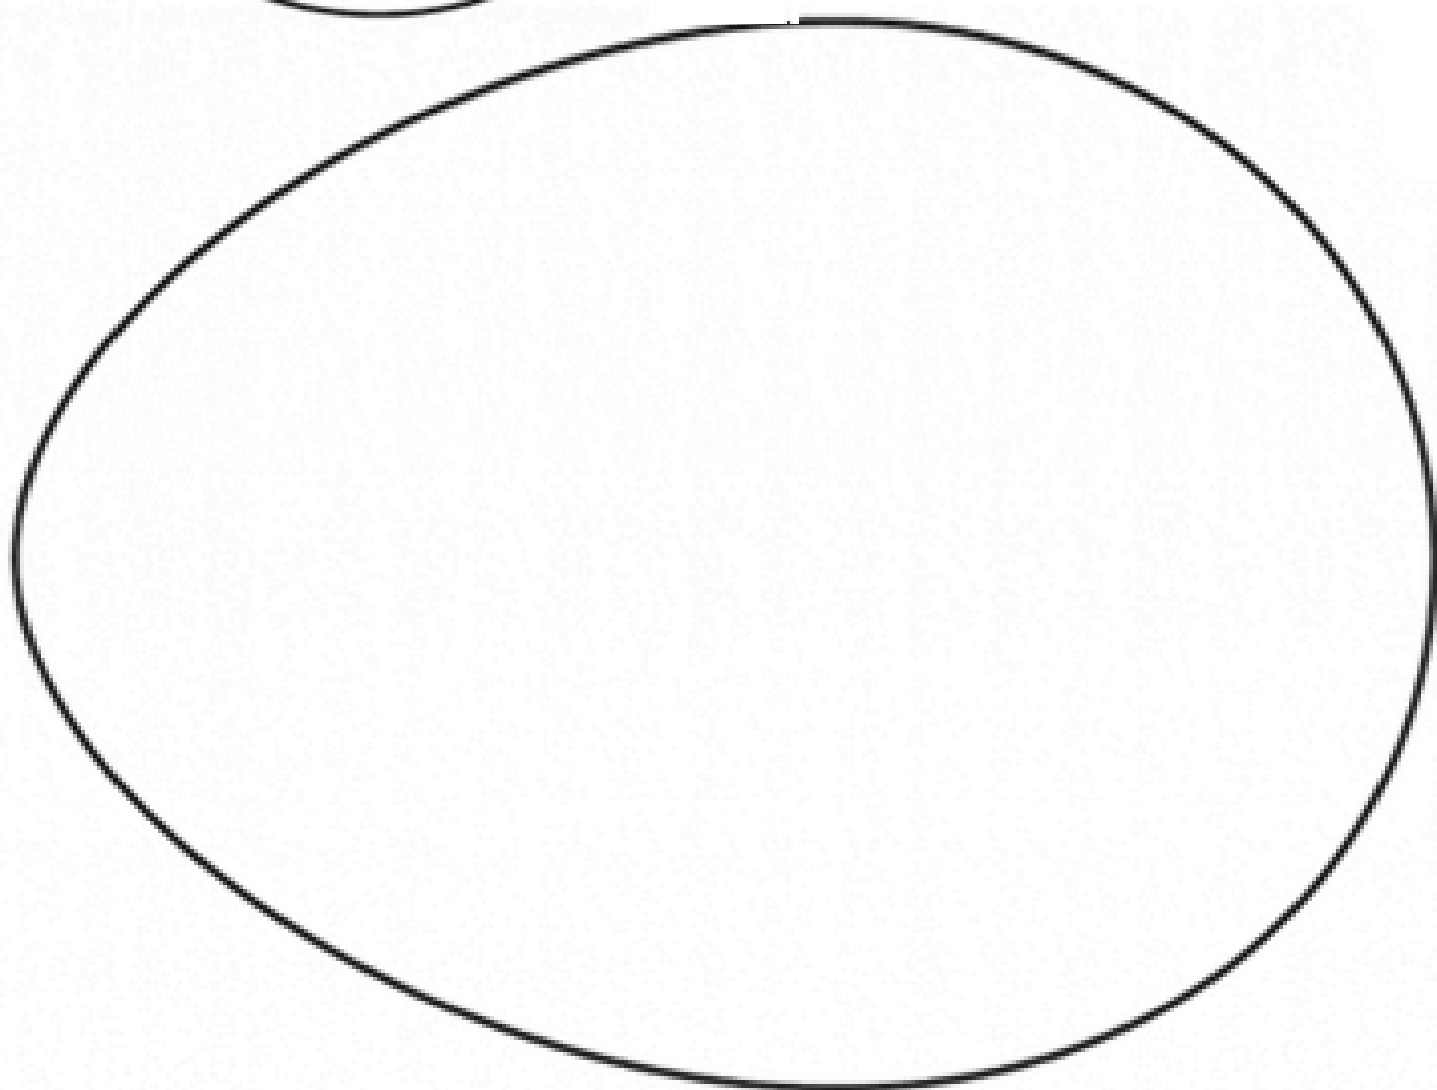

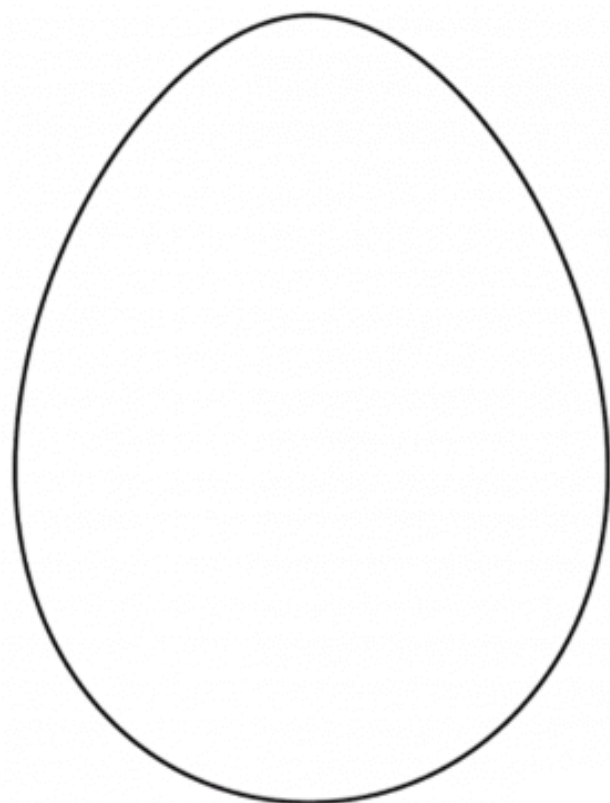

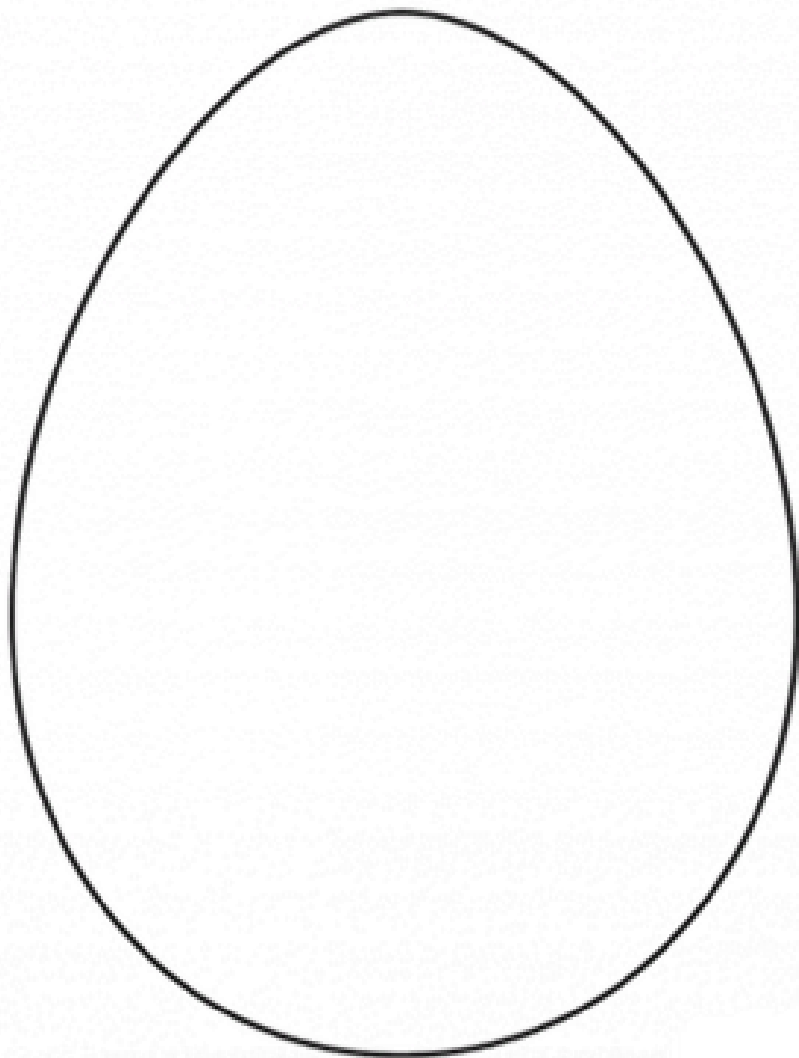

Daar kan je ook leuk mee knutselen.

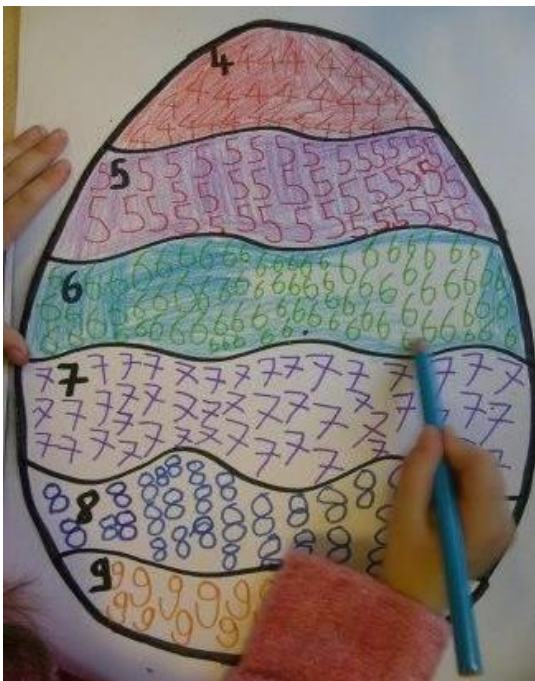

➔ Versieringen tekenen met (vette) wasco en daarna met waterverf overschilderen.

Dat geeft ook een leuk effectje!

Wat andere knutselideetjes 😊.

Het is lente!!!! En bloemetjes maken alles wat vrolijker 😊.

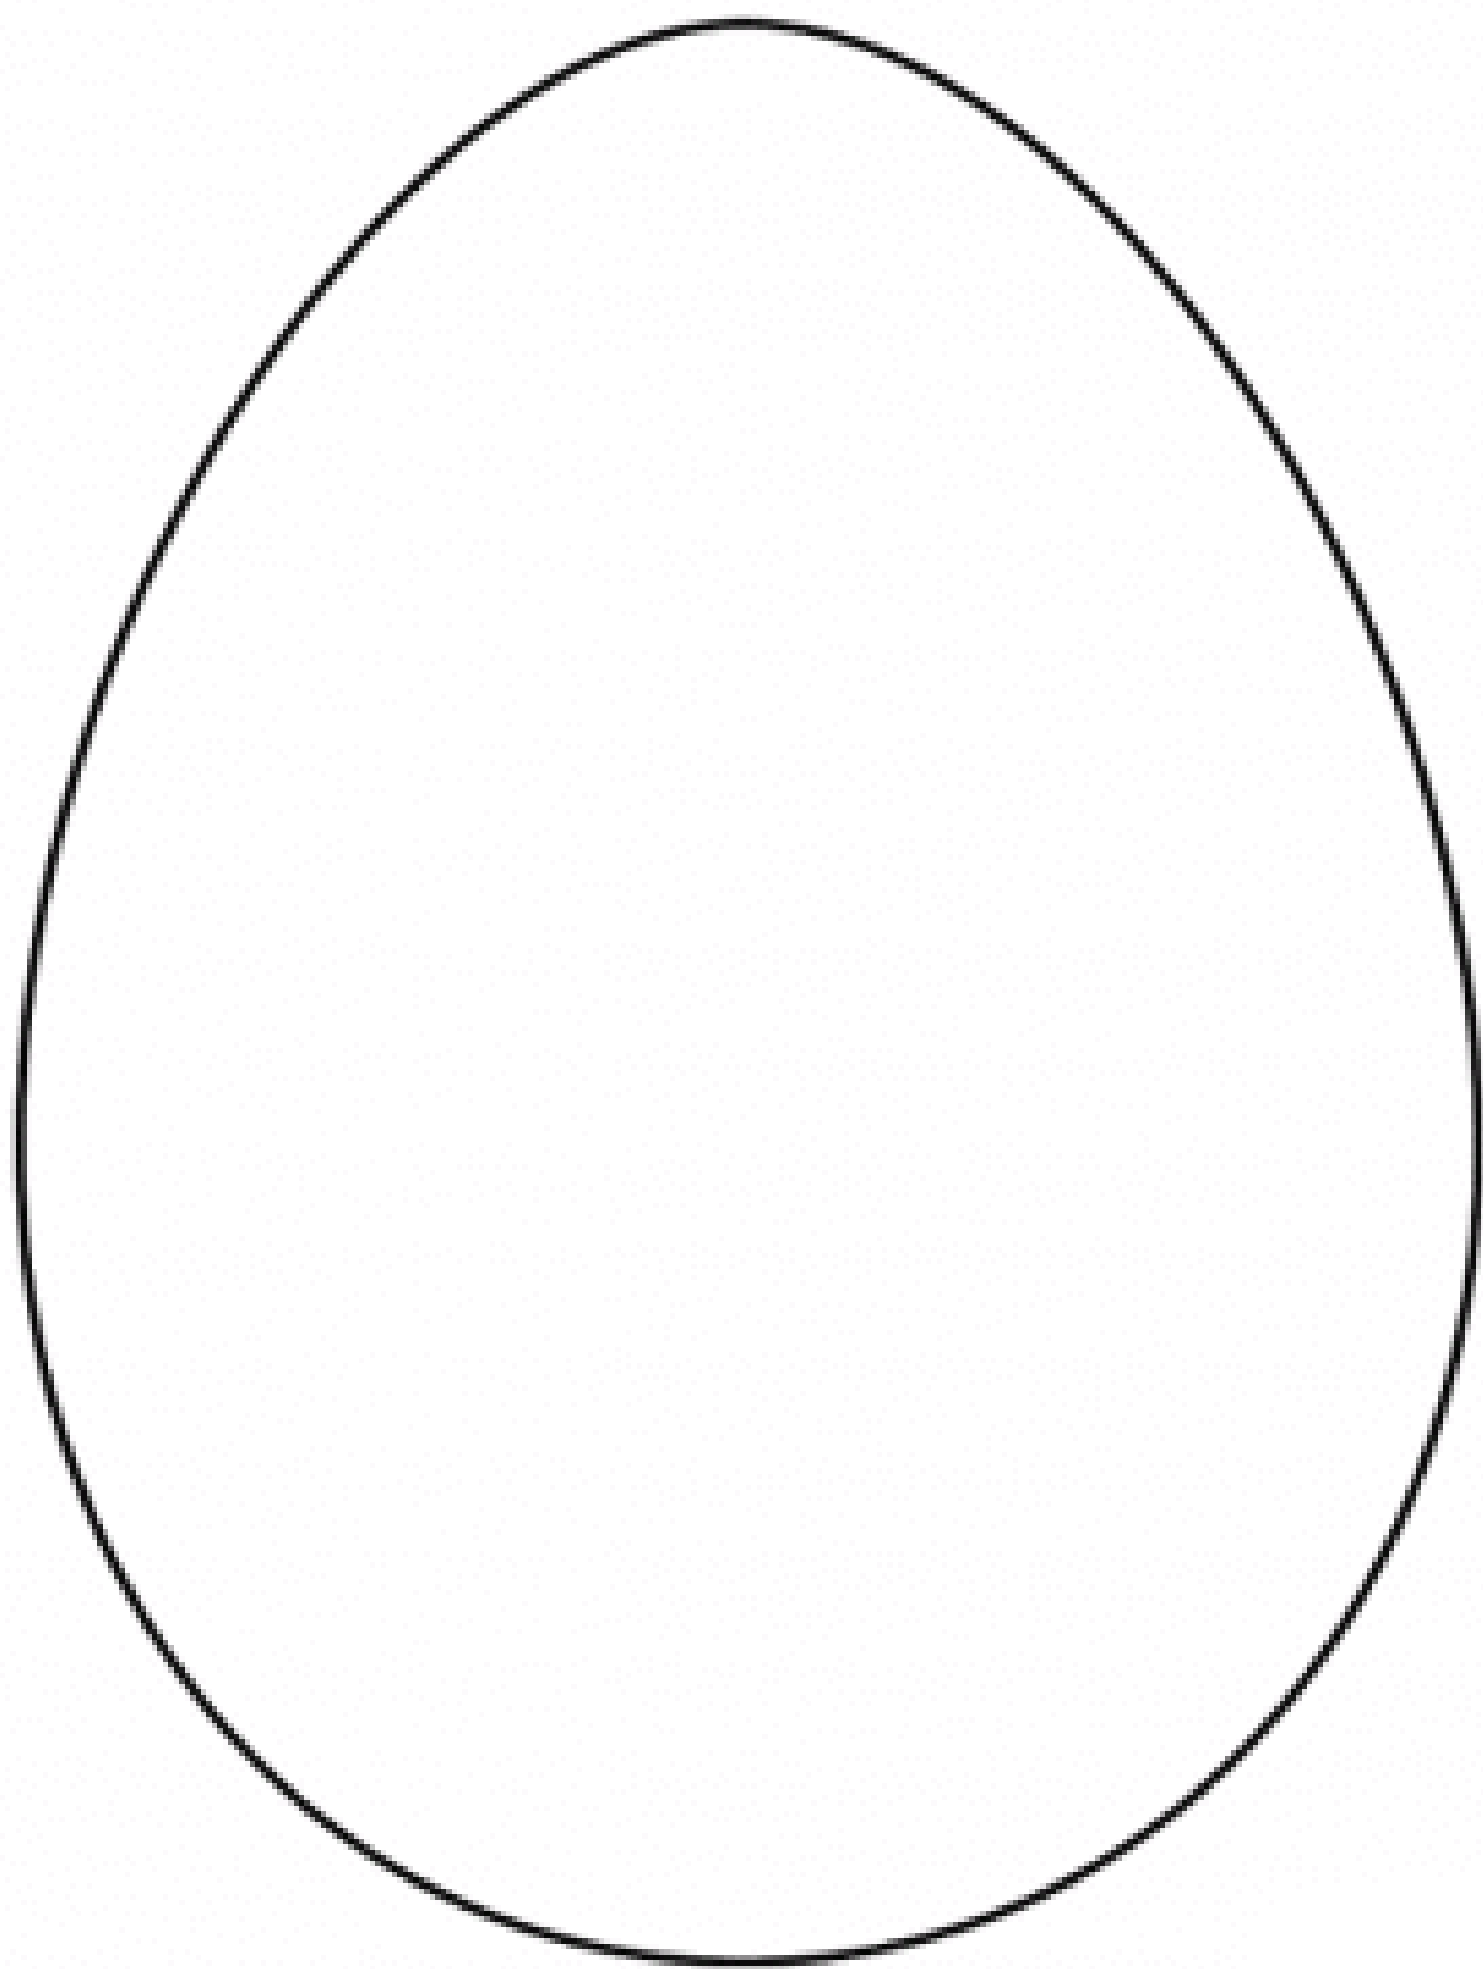

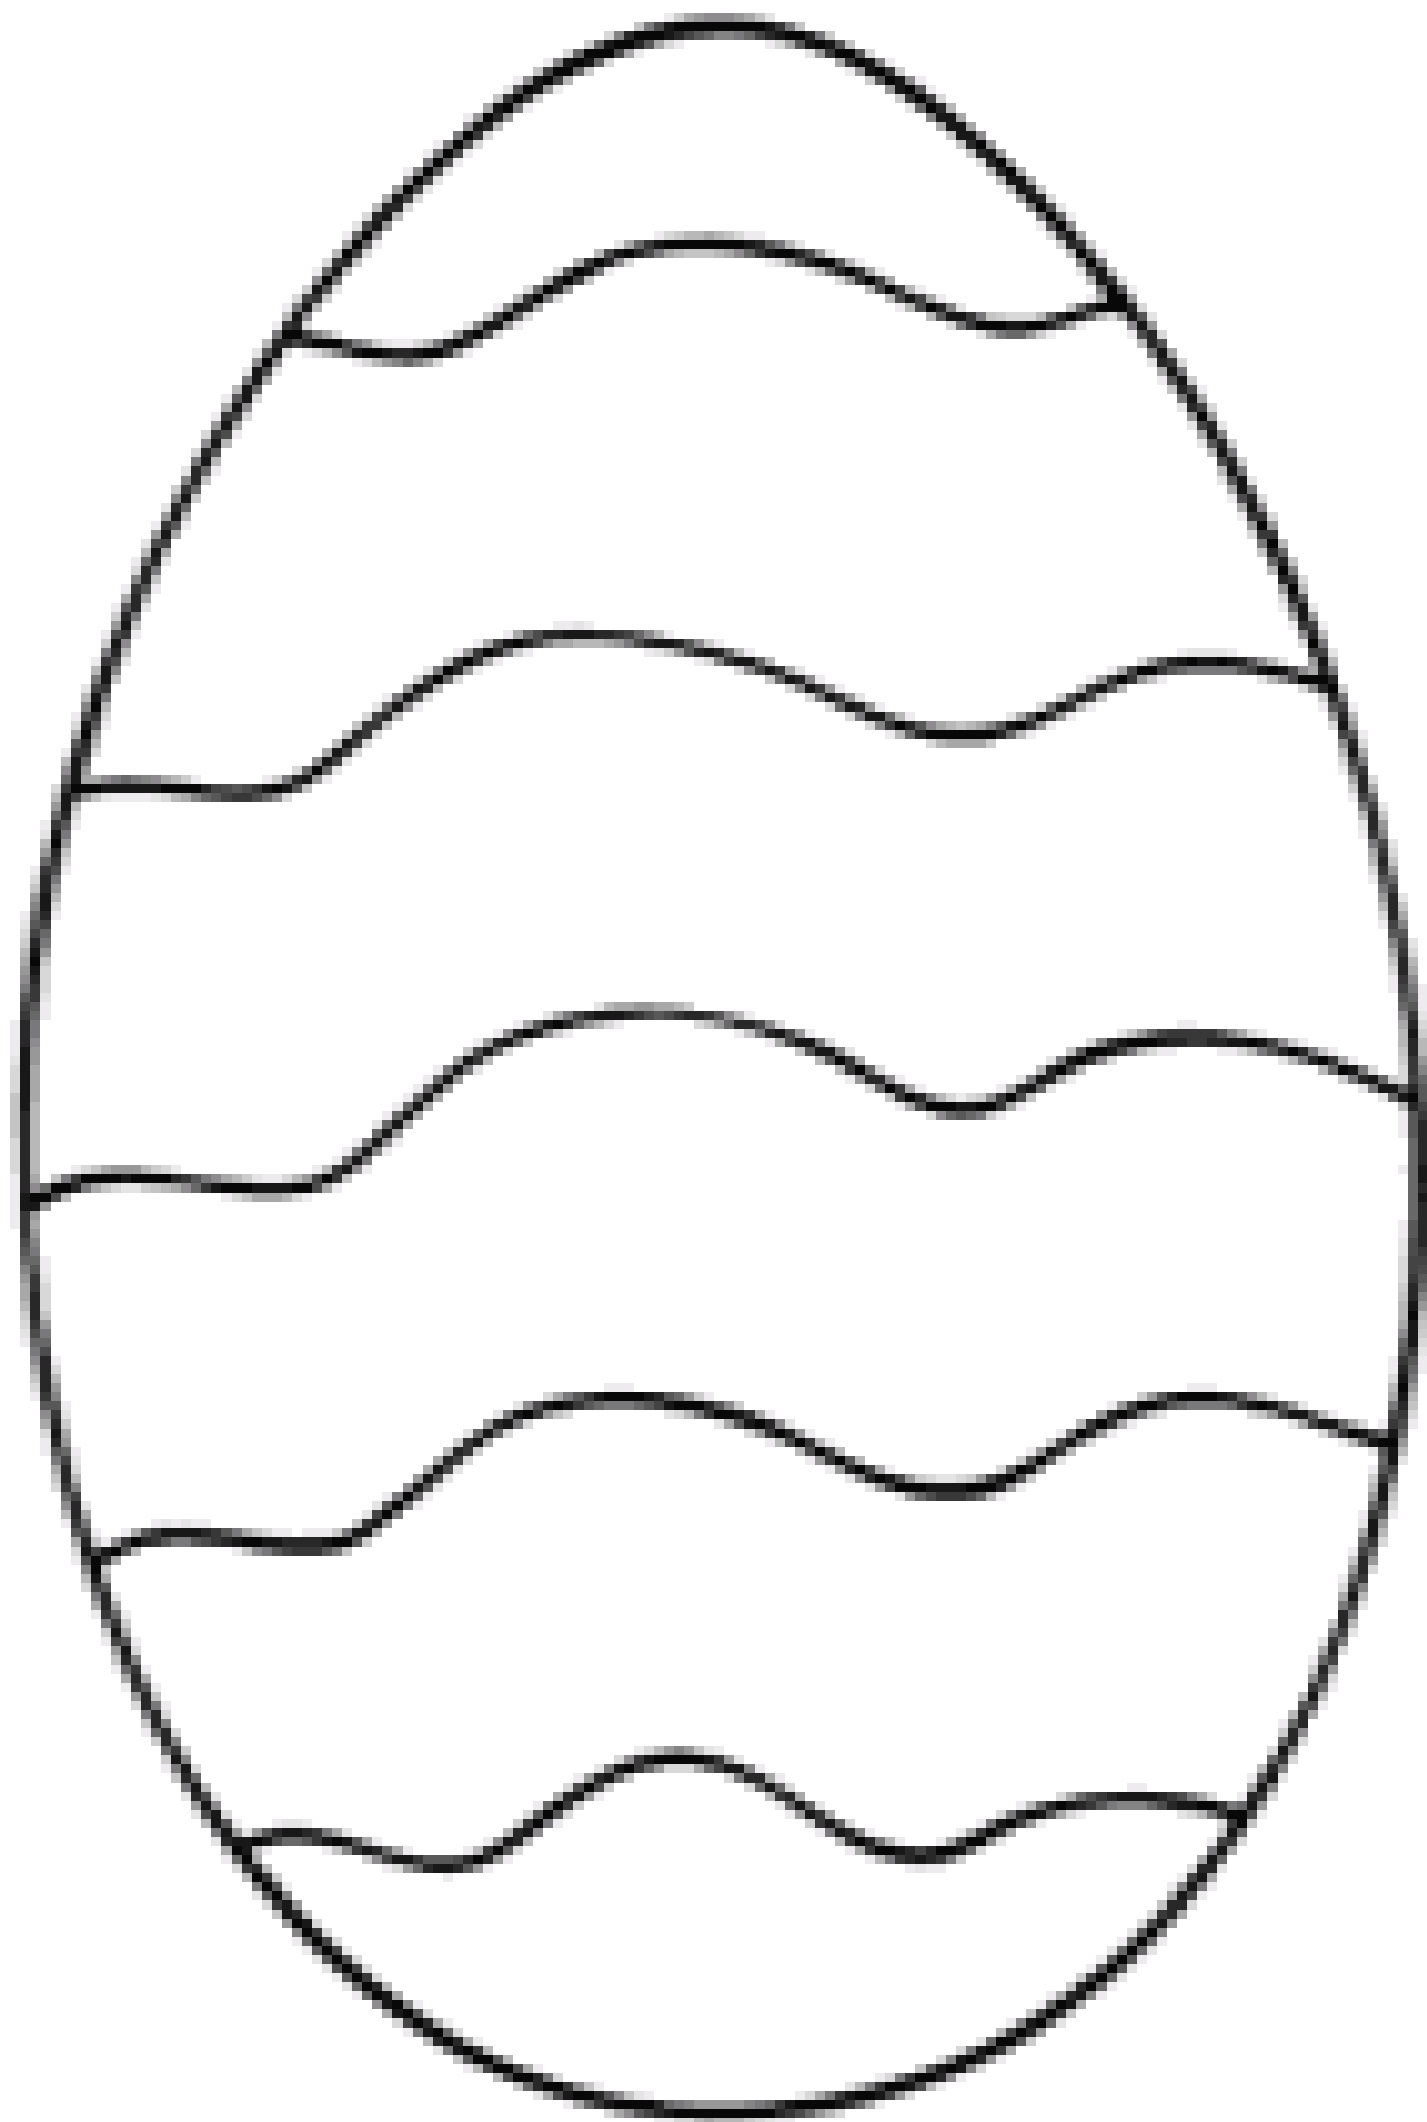

2. OPDRACHTJES MET PLASTICINE OF IETS ANDERS VAN VERSIERMATERIAAL

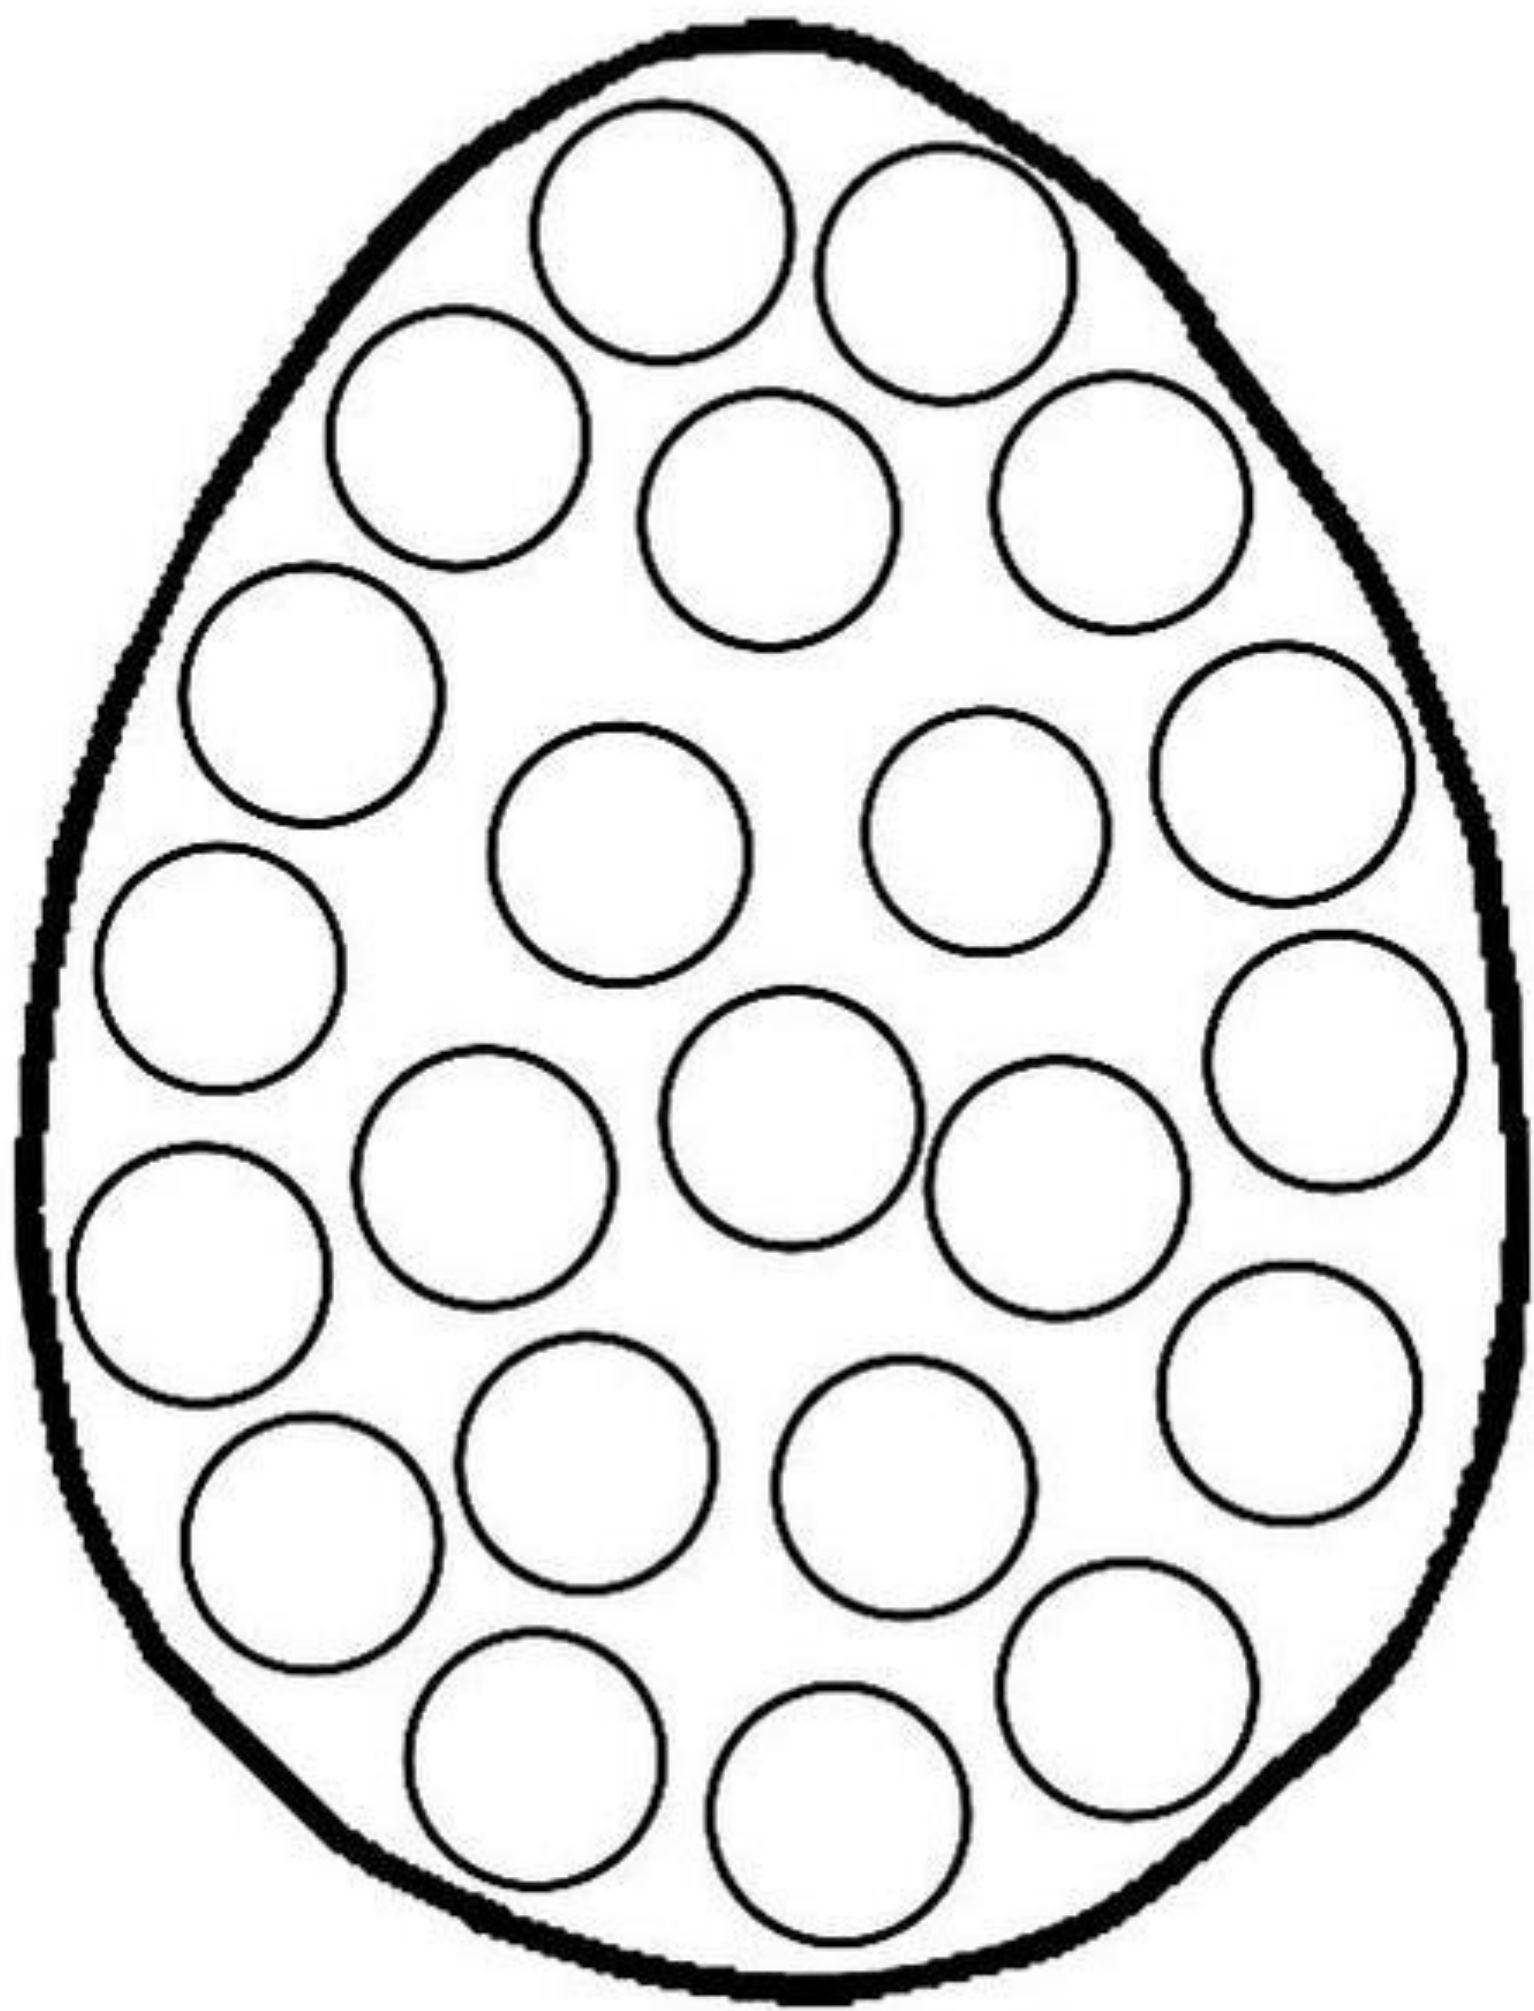

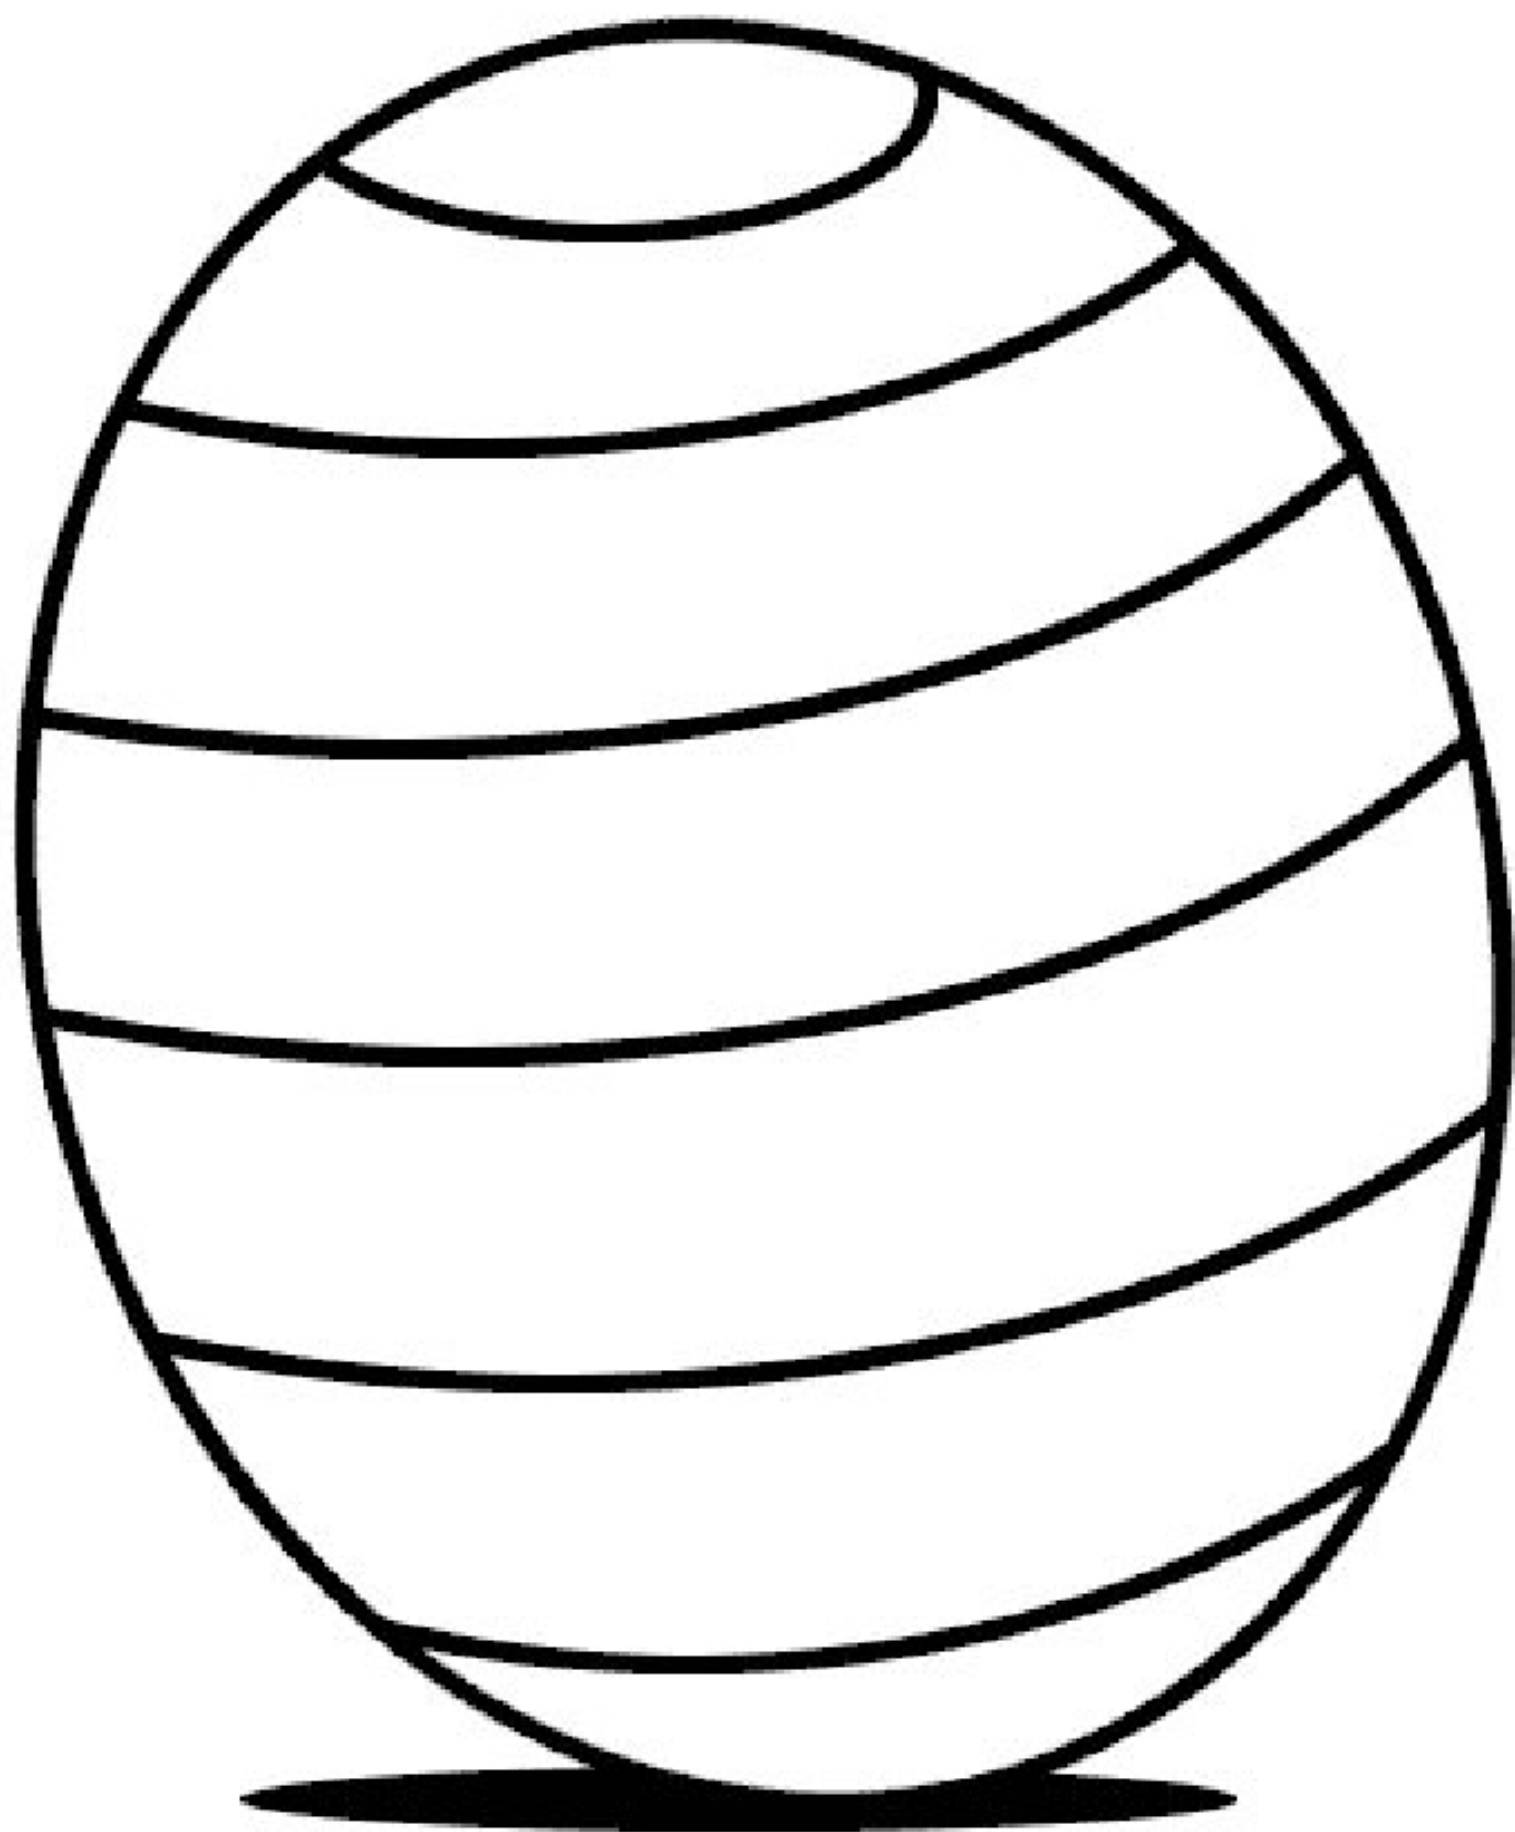

Paaseieren versieren met plasticine, knopen, pompons, kralen ...

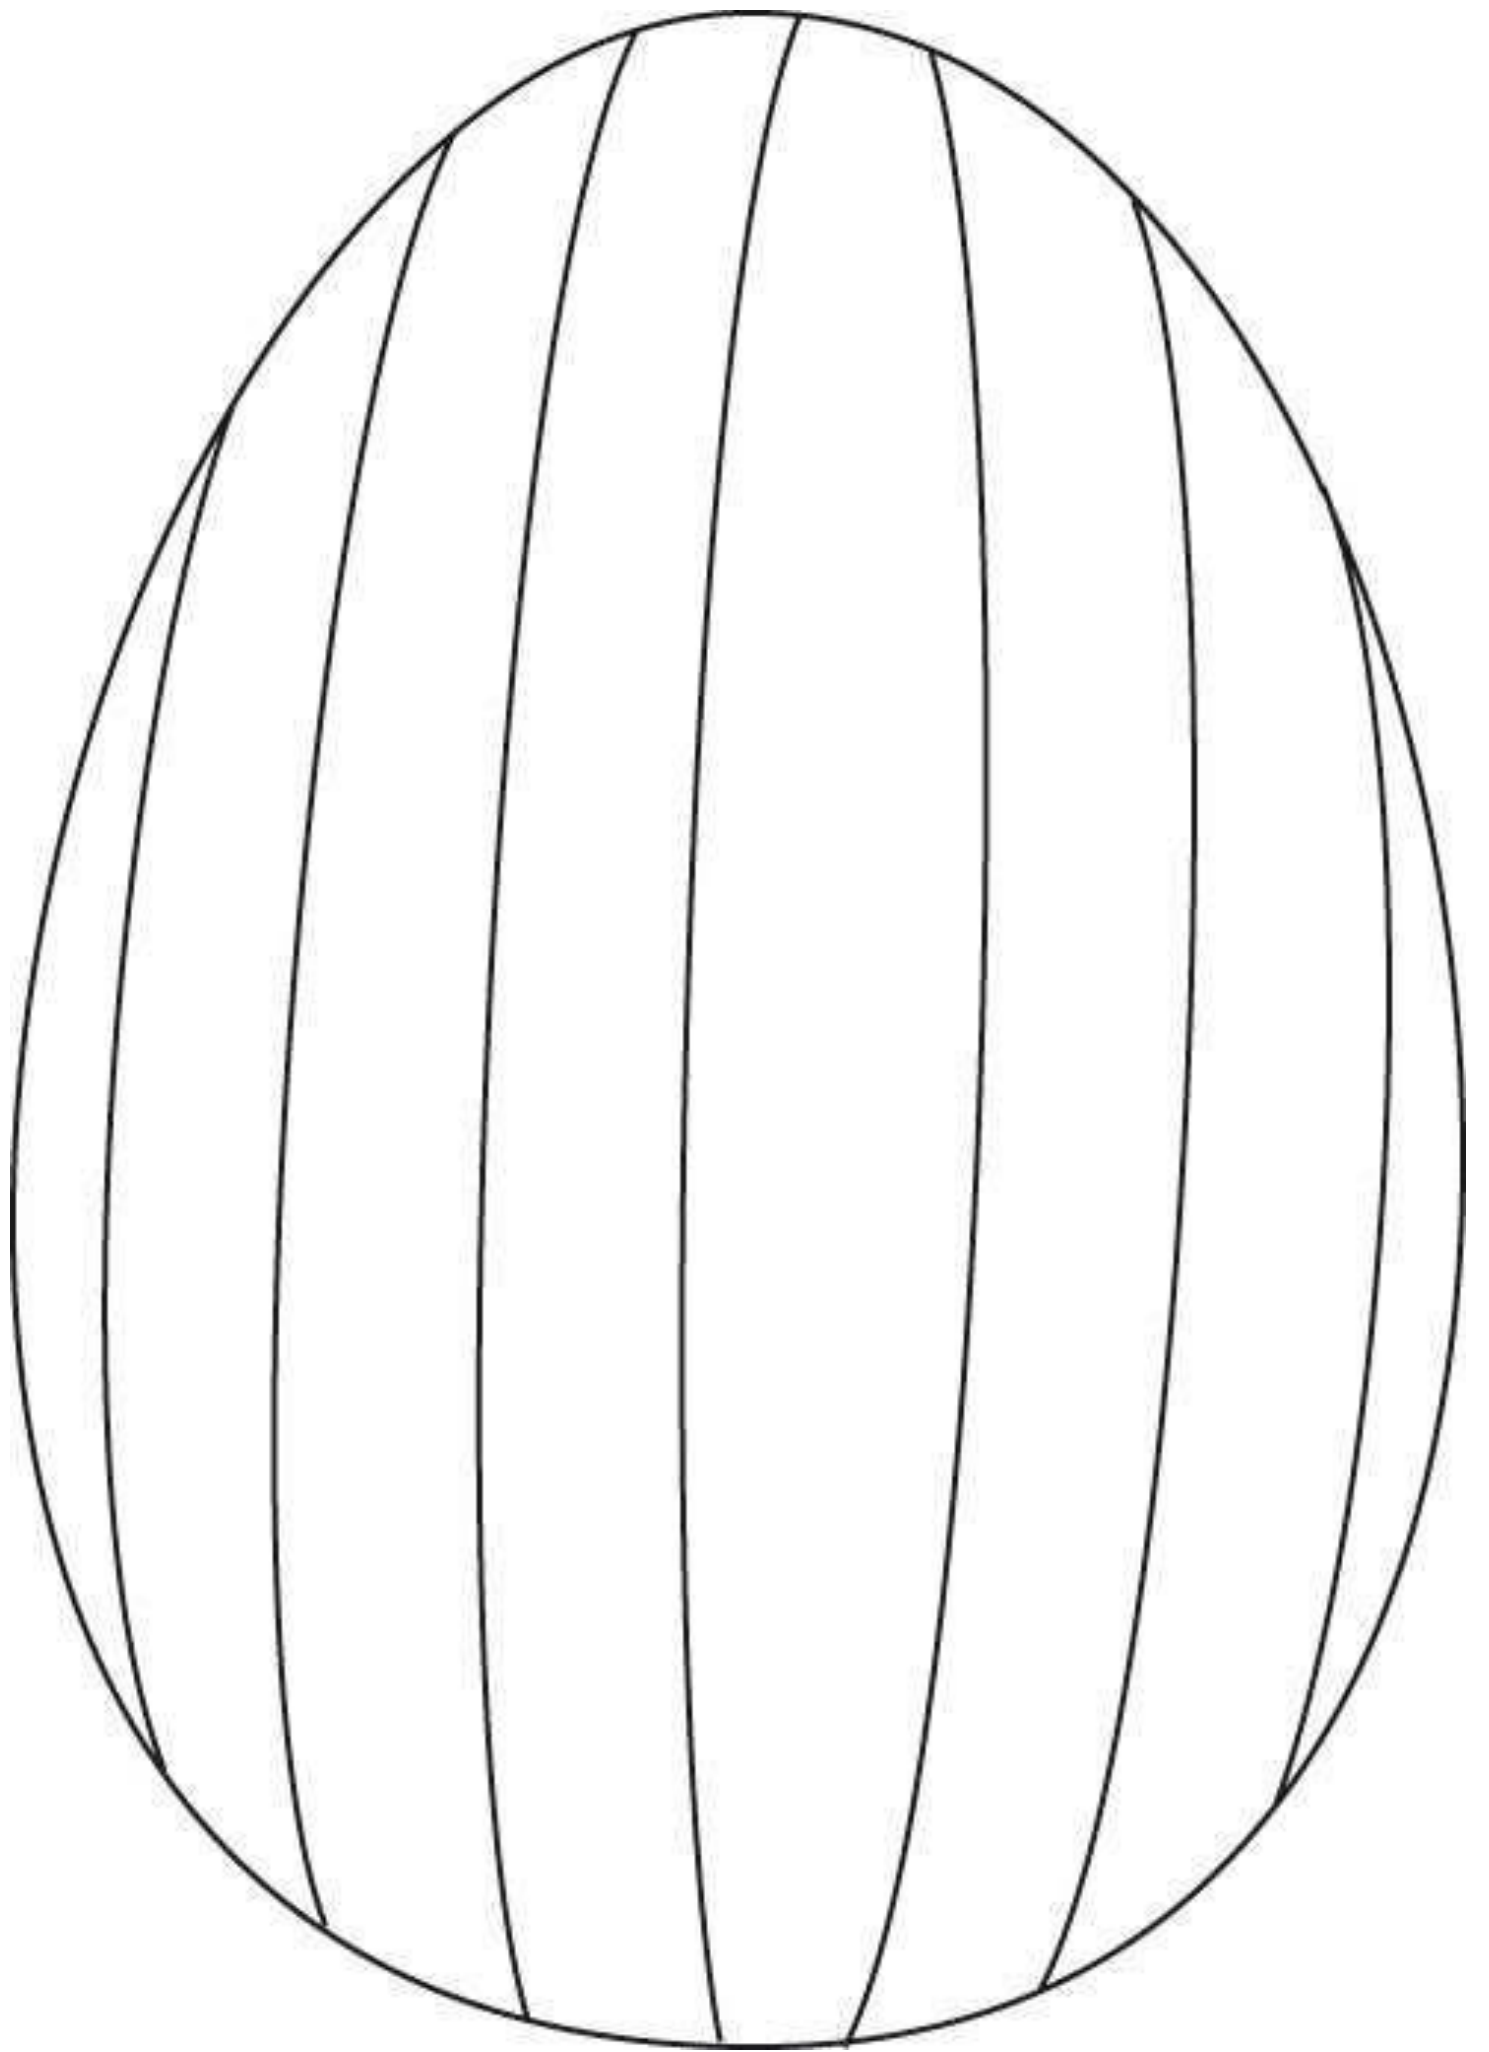

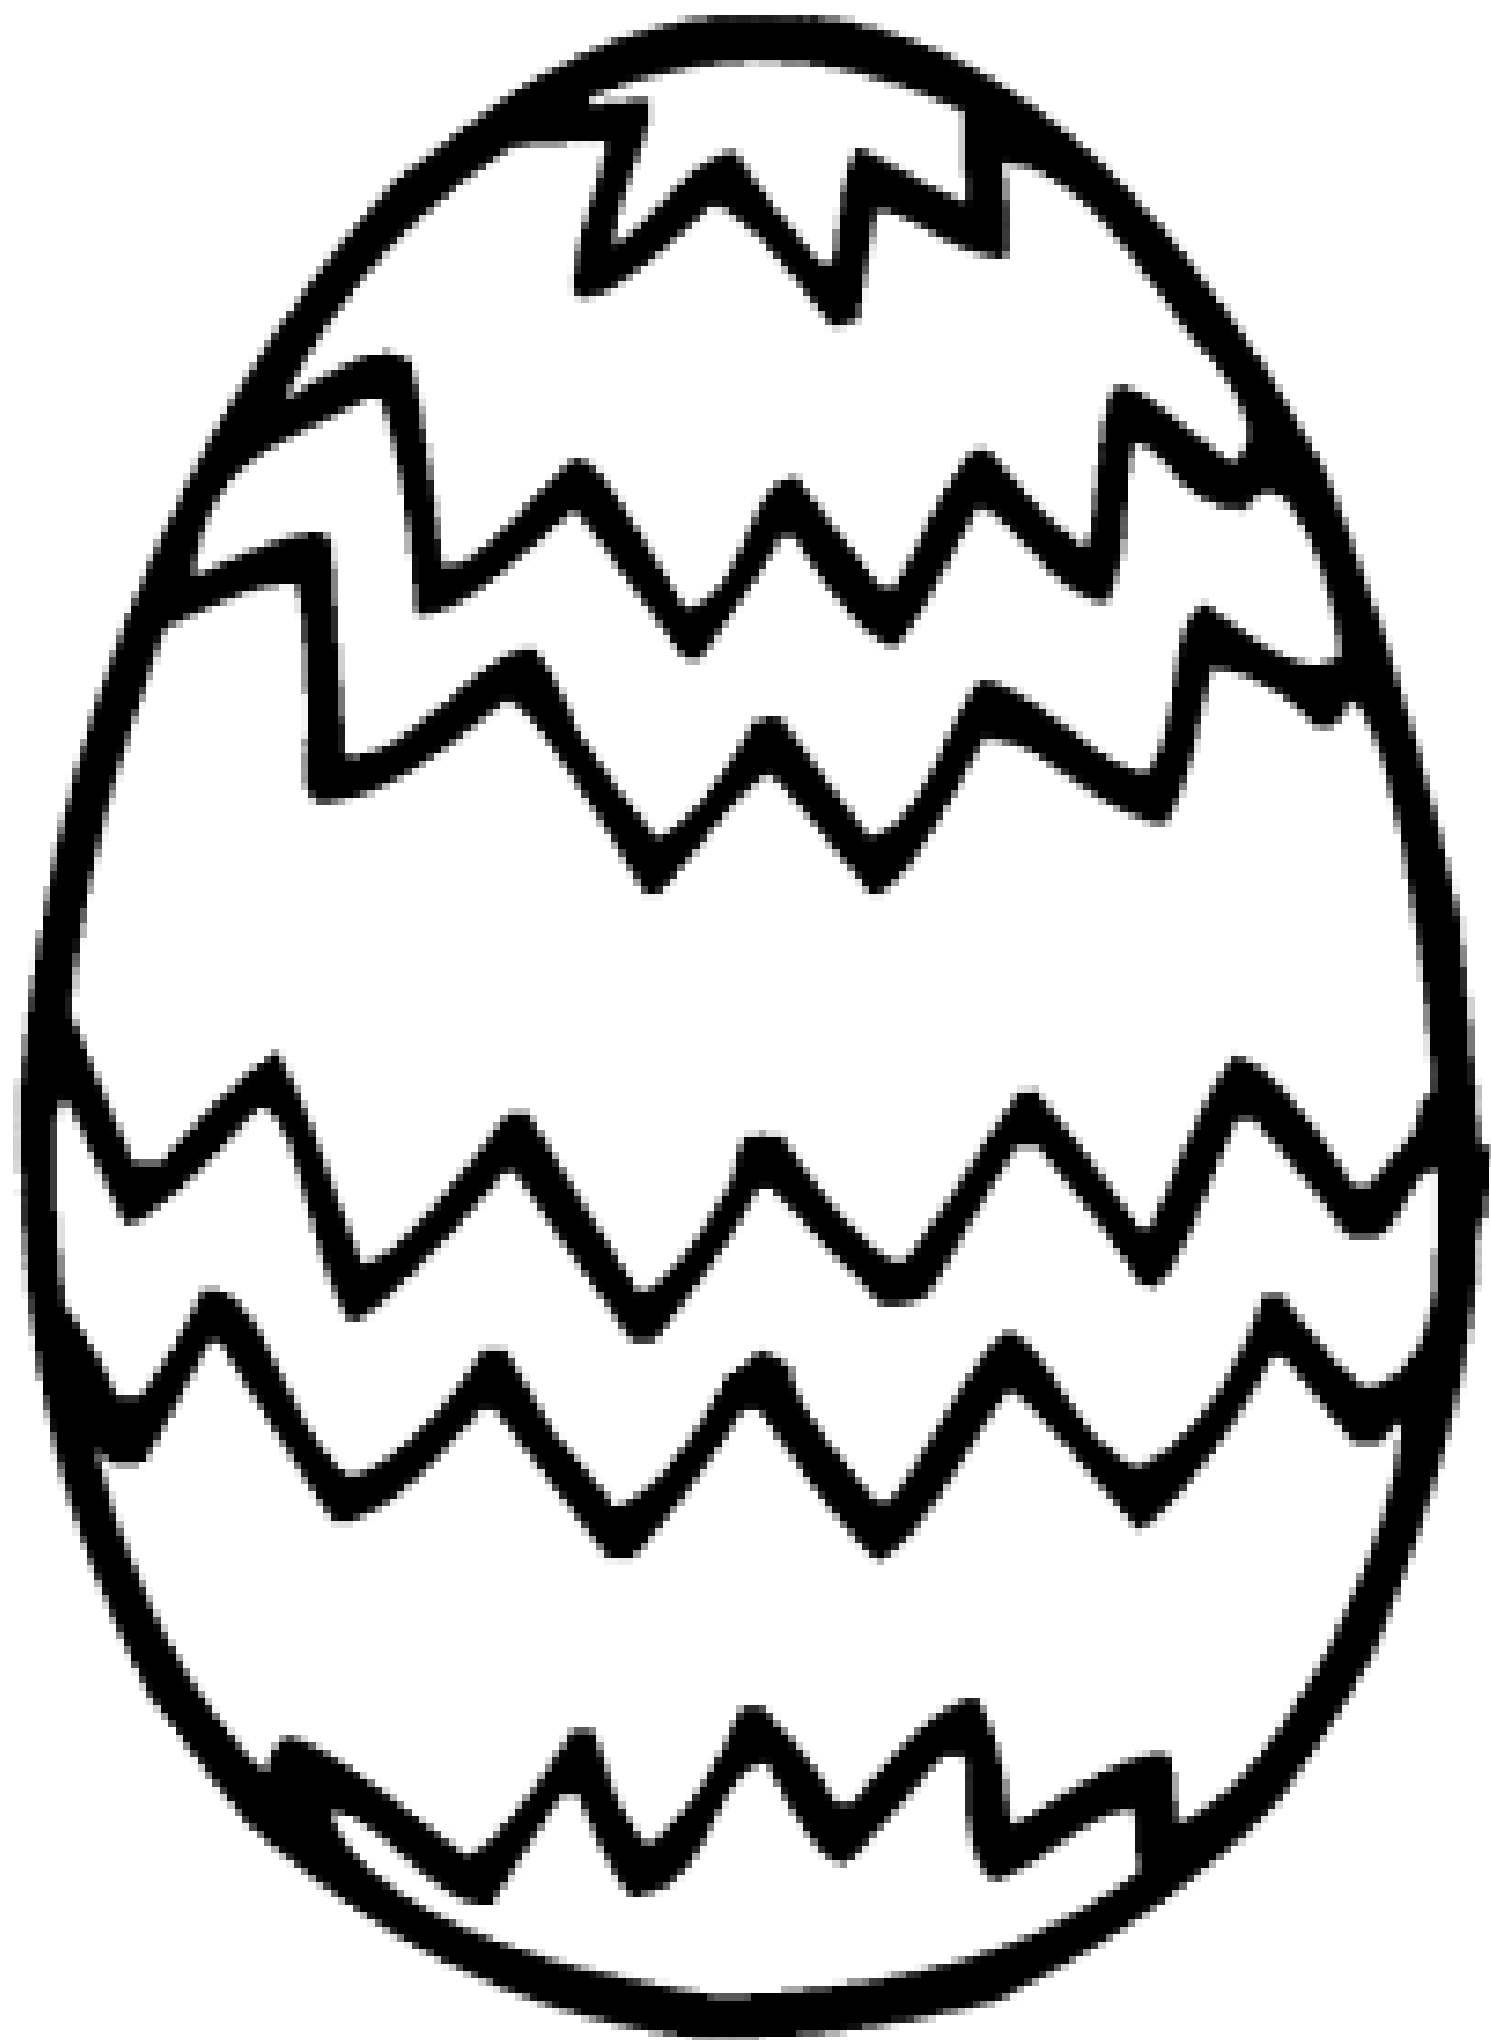

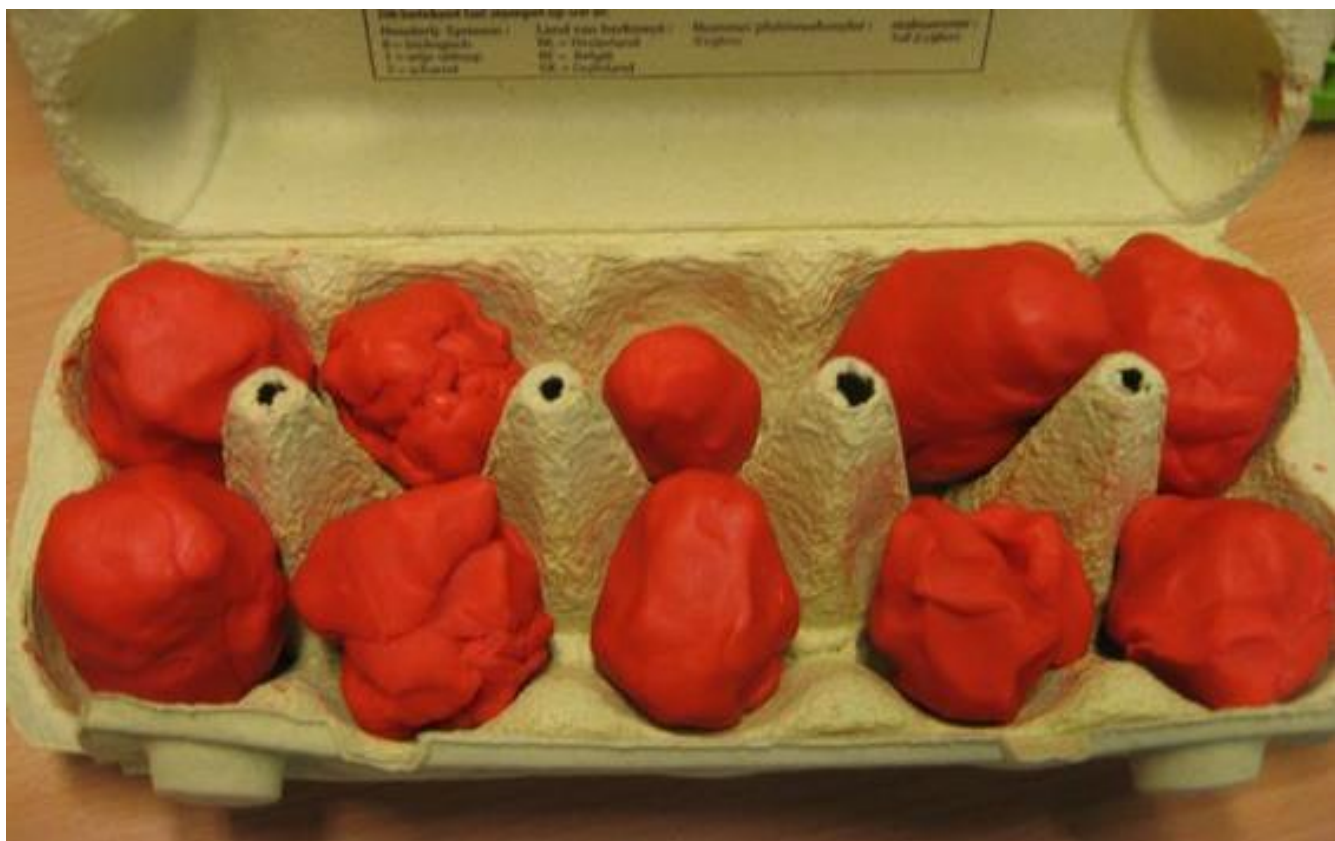

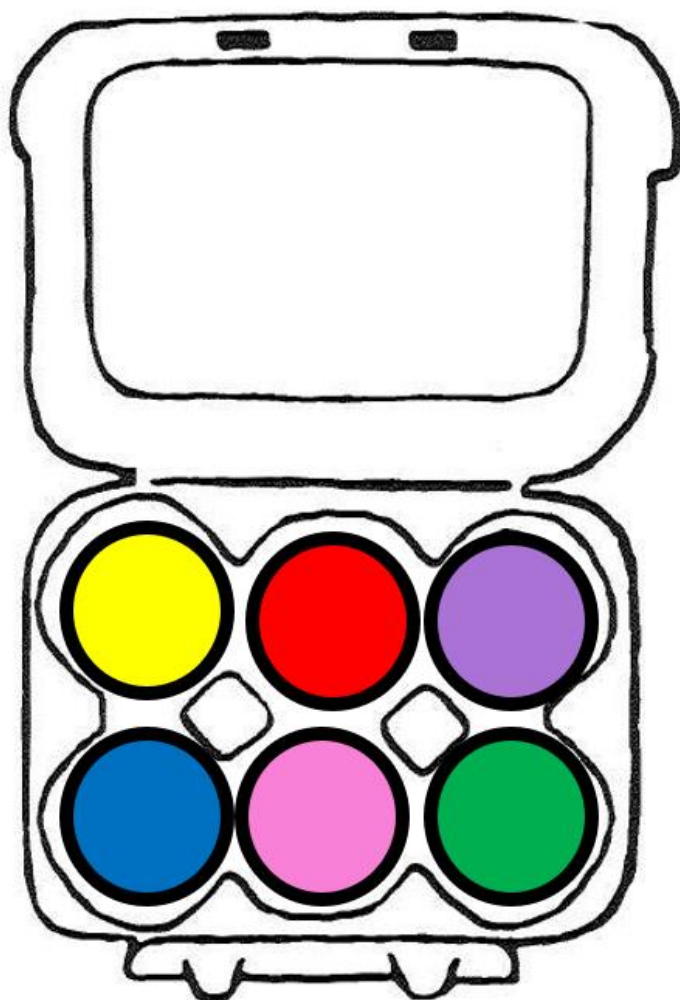

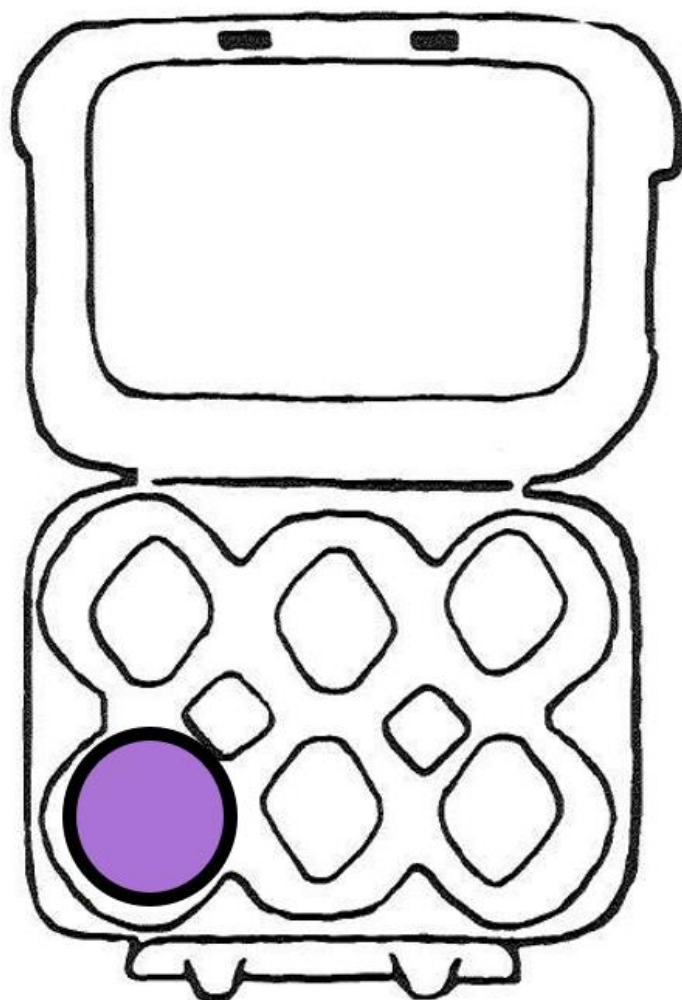

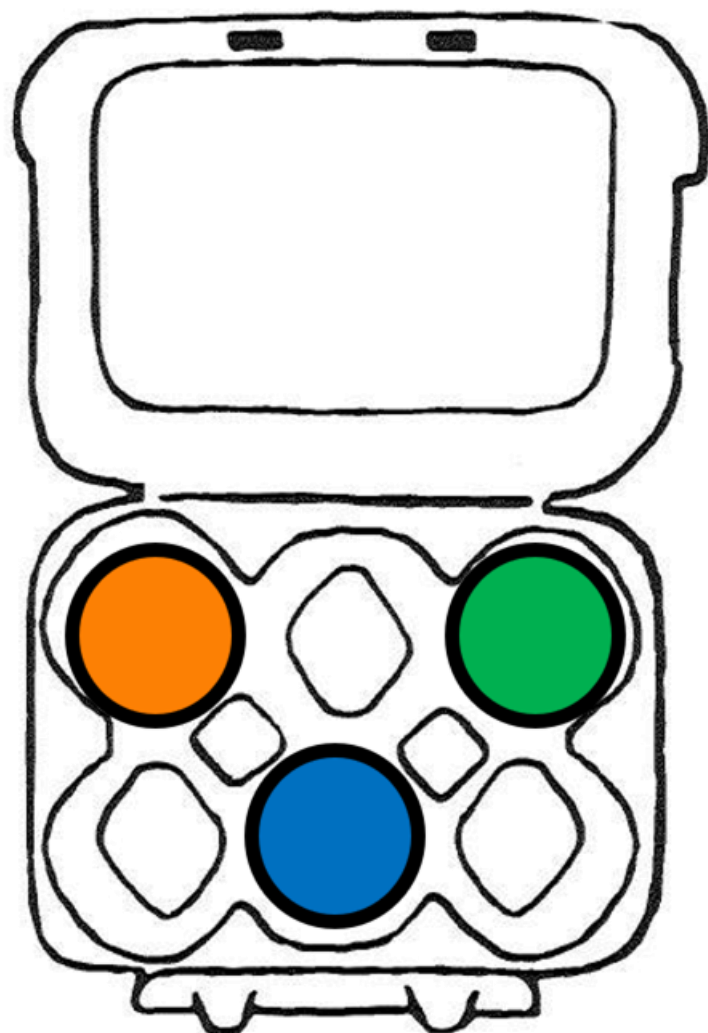

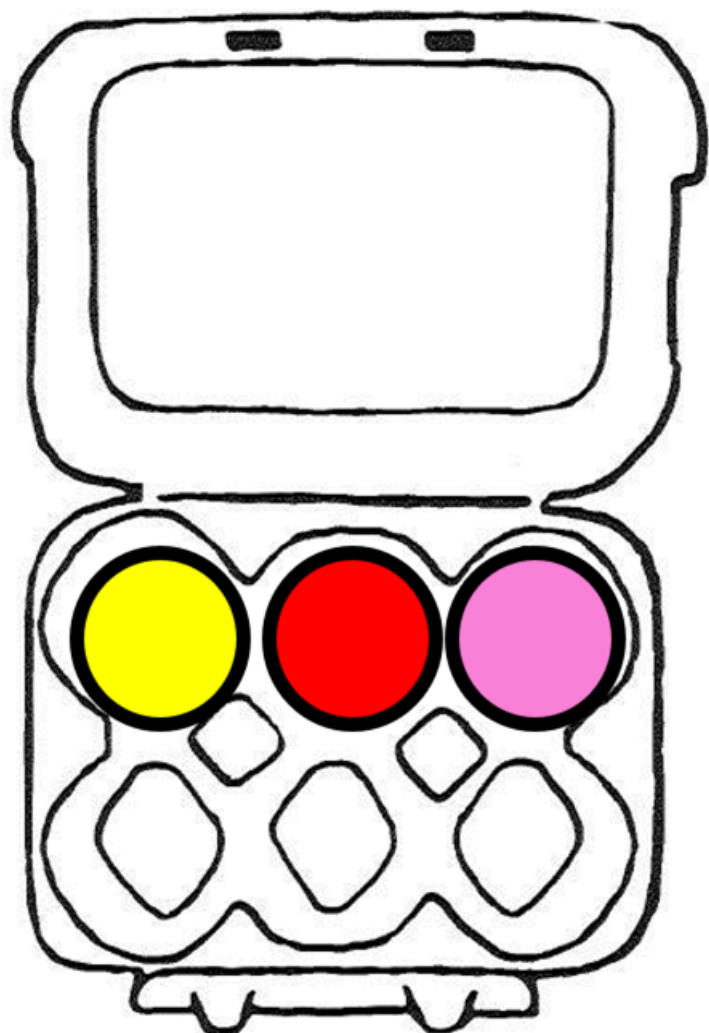

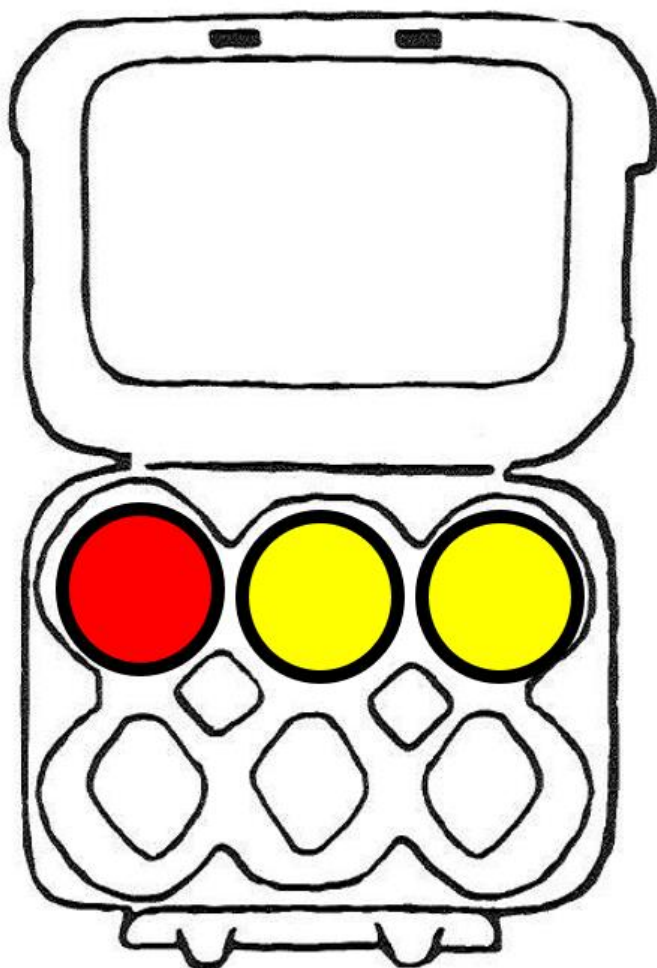

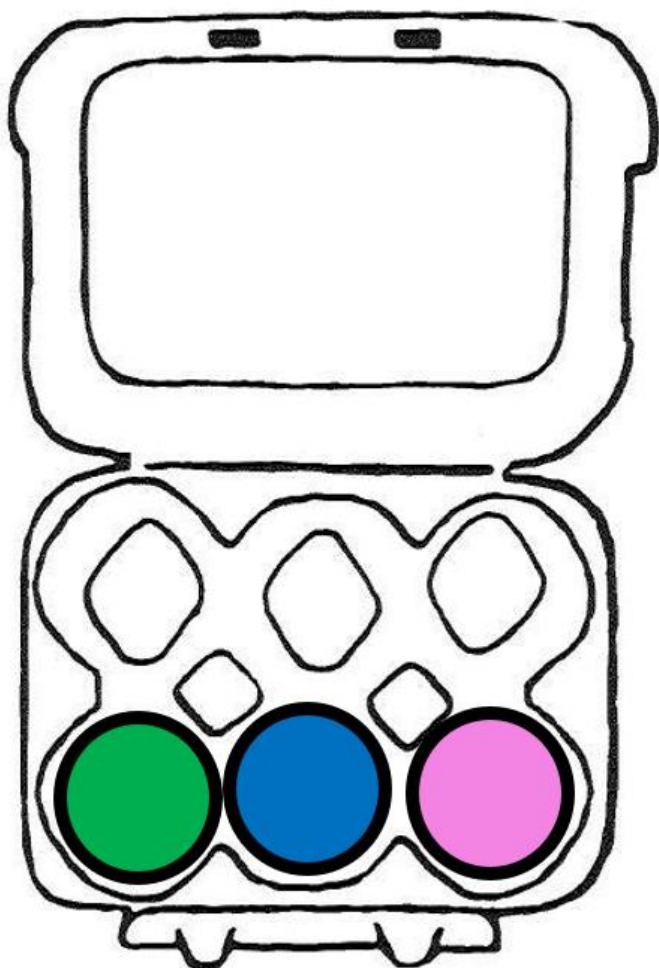

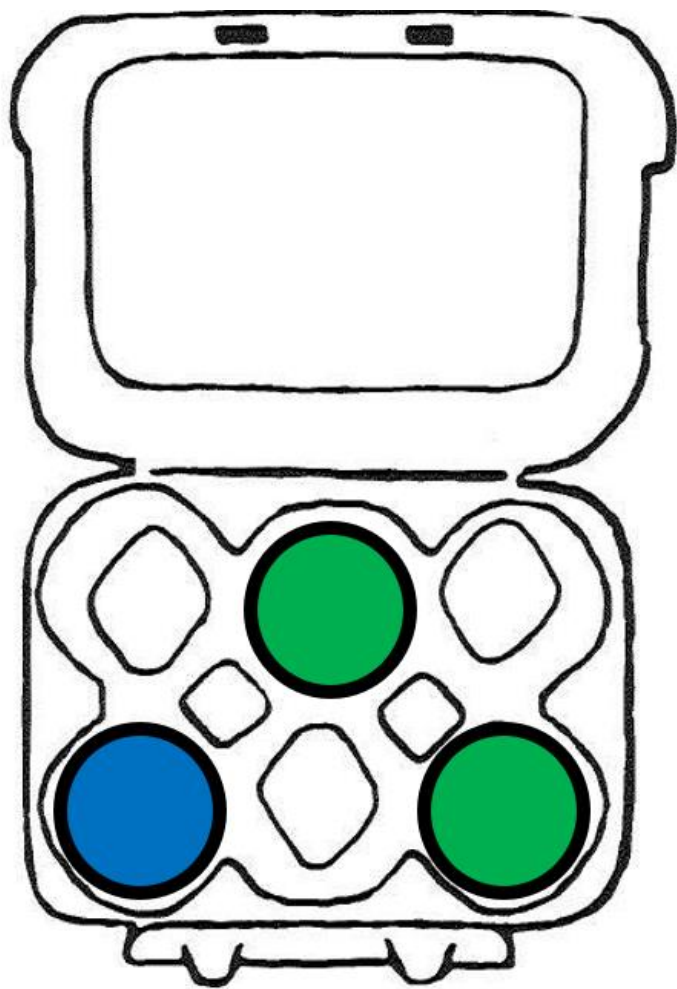

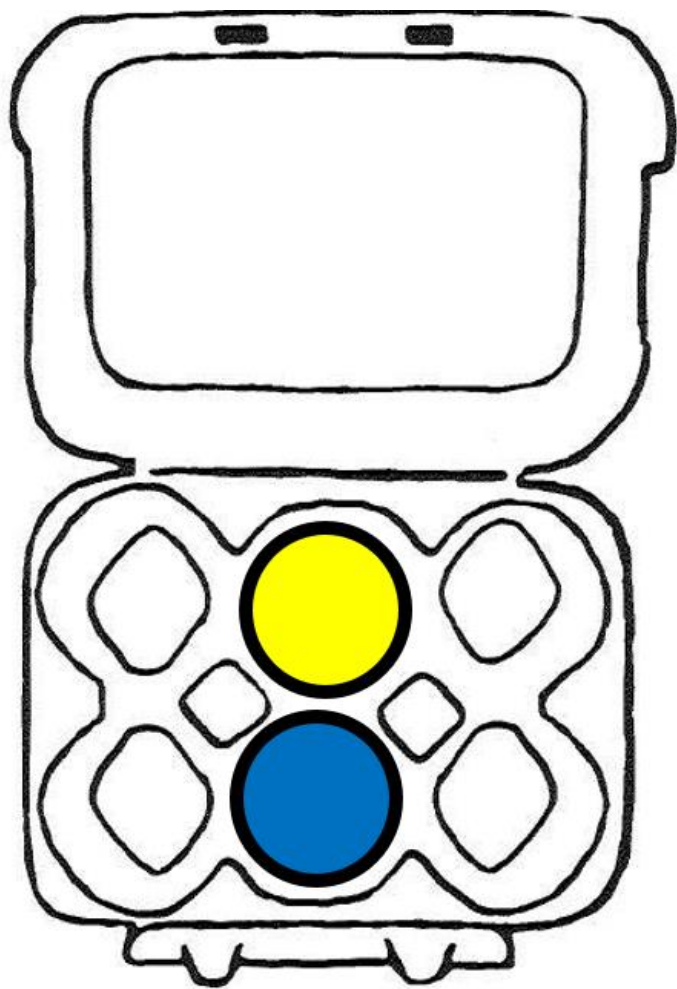

Eieren boetsen of eierdozen vullen met pompons, knopen, ...

Klei de paaseieren in de mand.

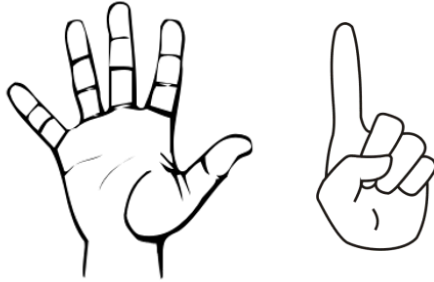

Klei de paaseieren in de mand.

5

Klei de paaseieren in de mand.

6

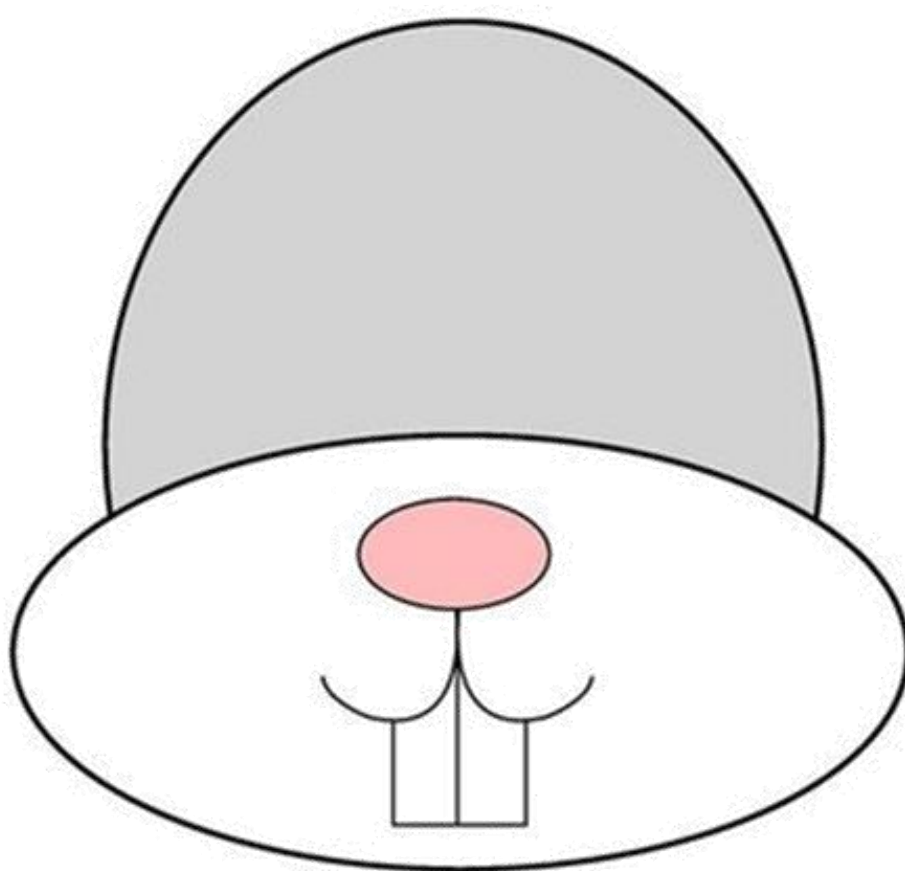

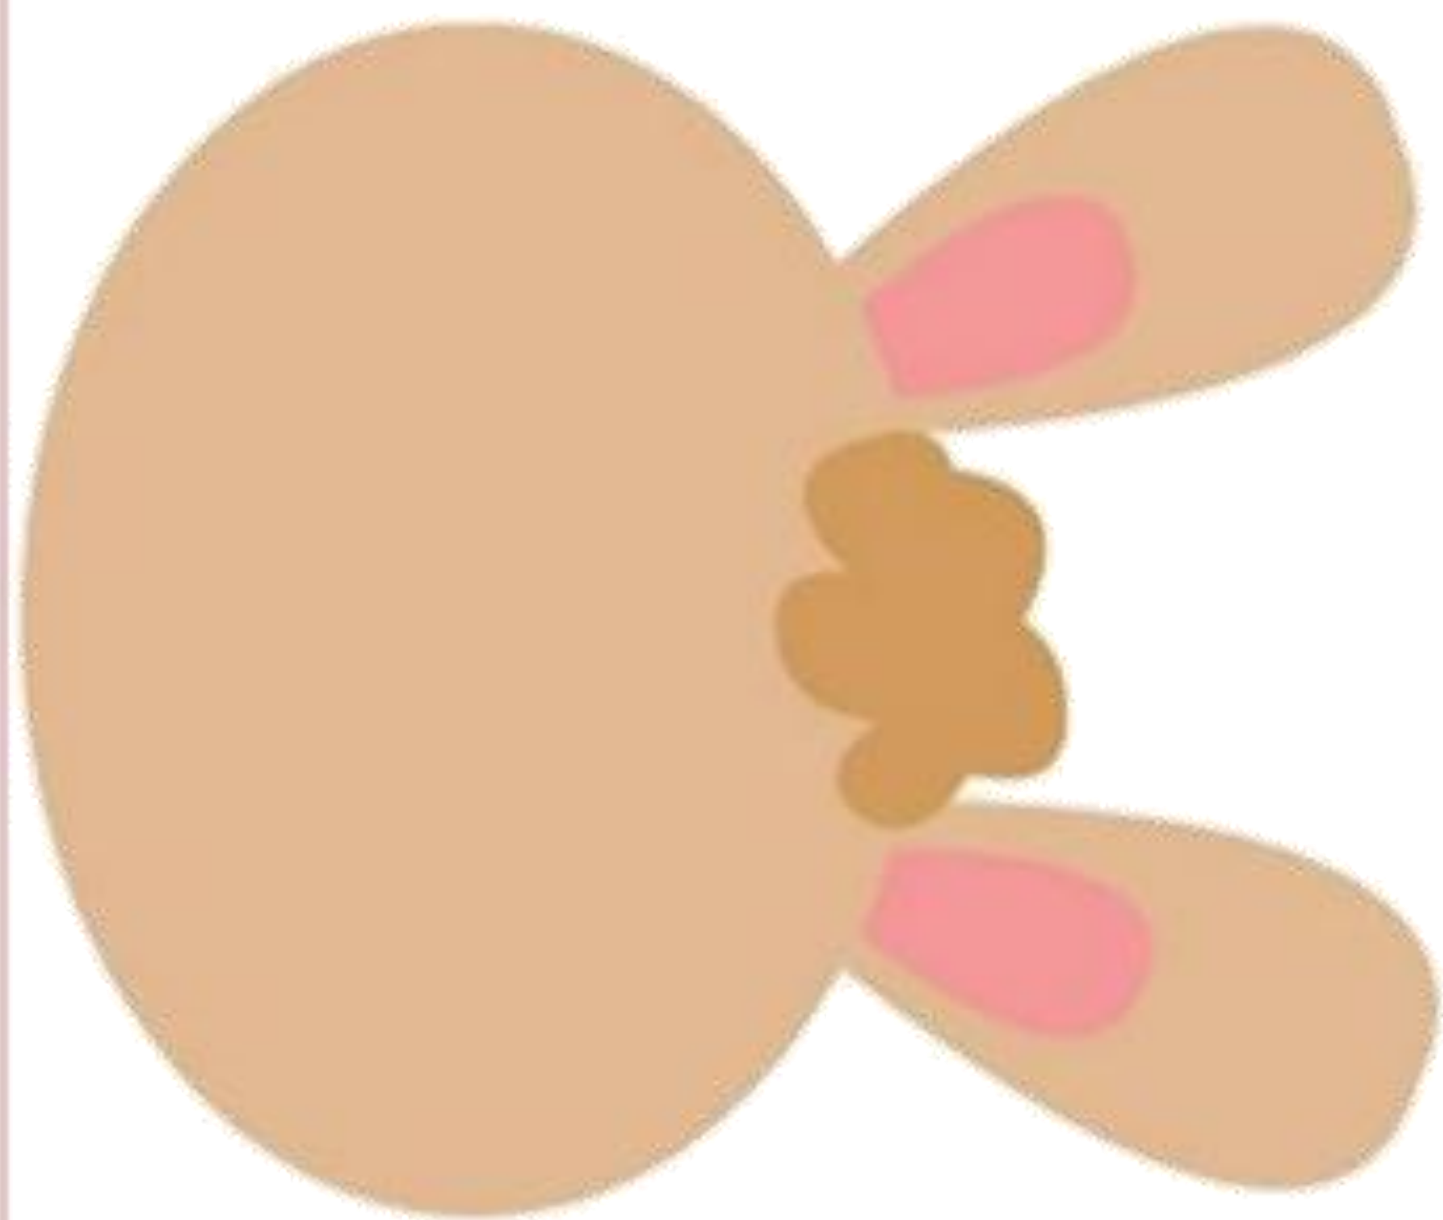

Klei de paaseieren in de mand.

3

Paashazen verder boetseren

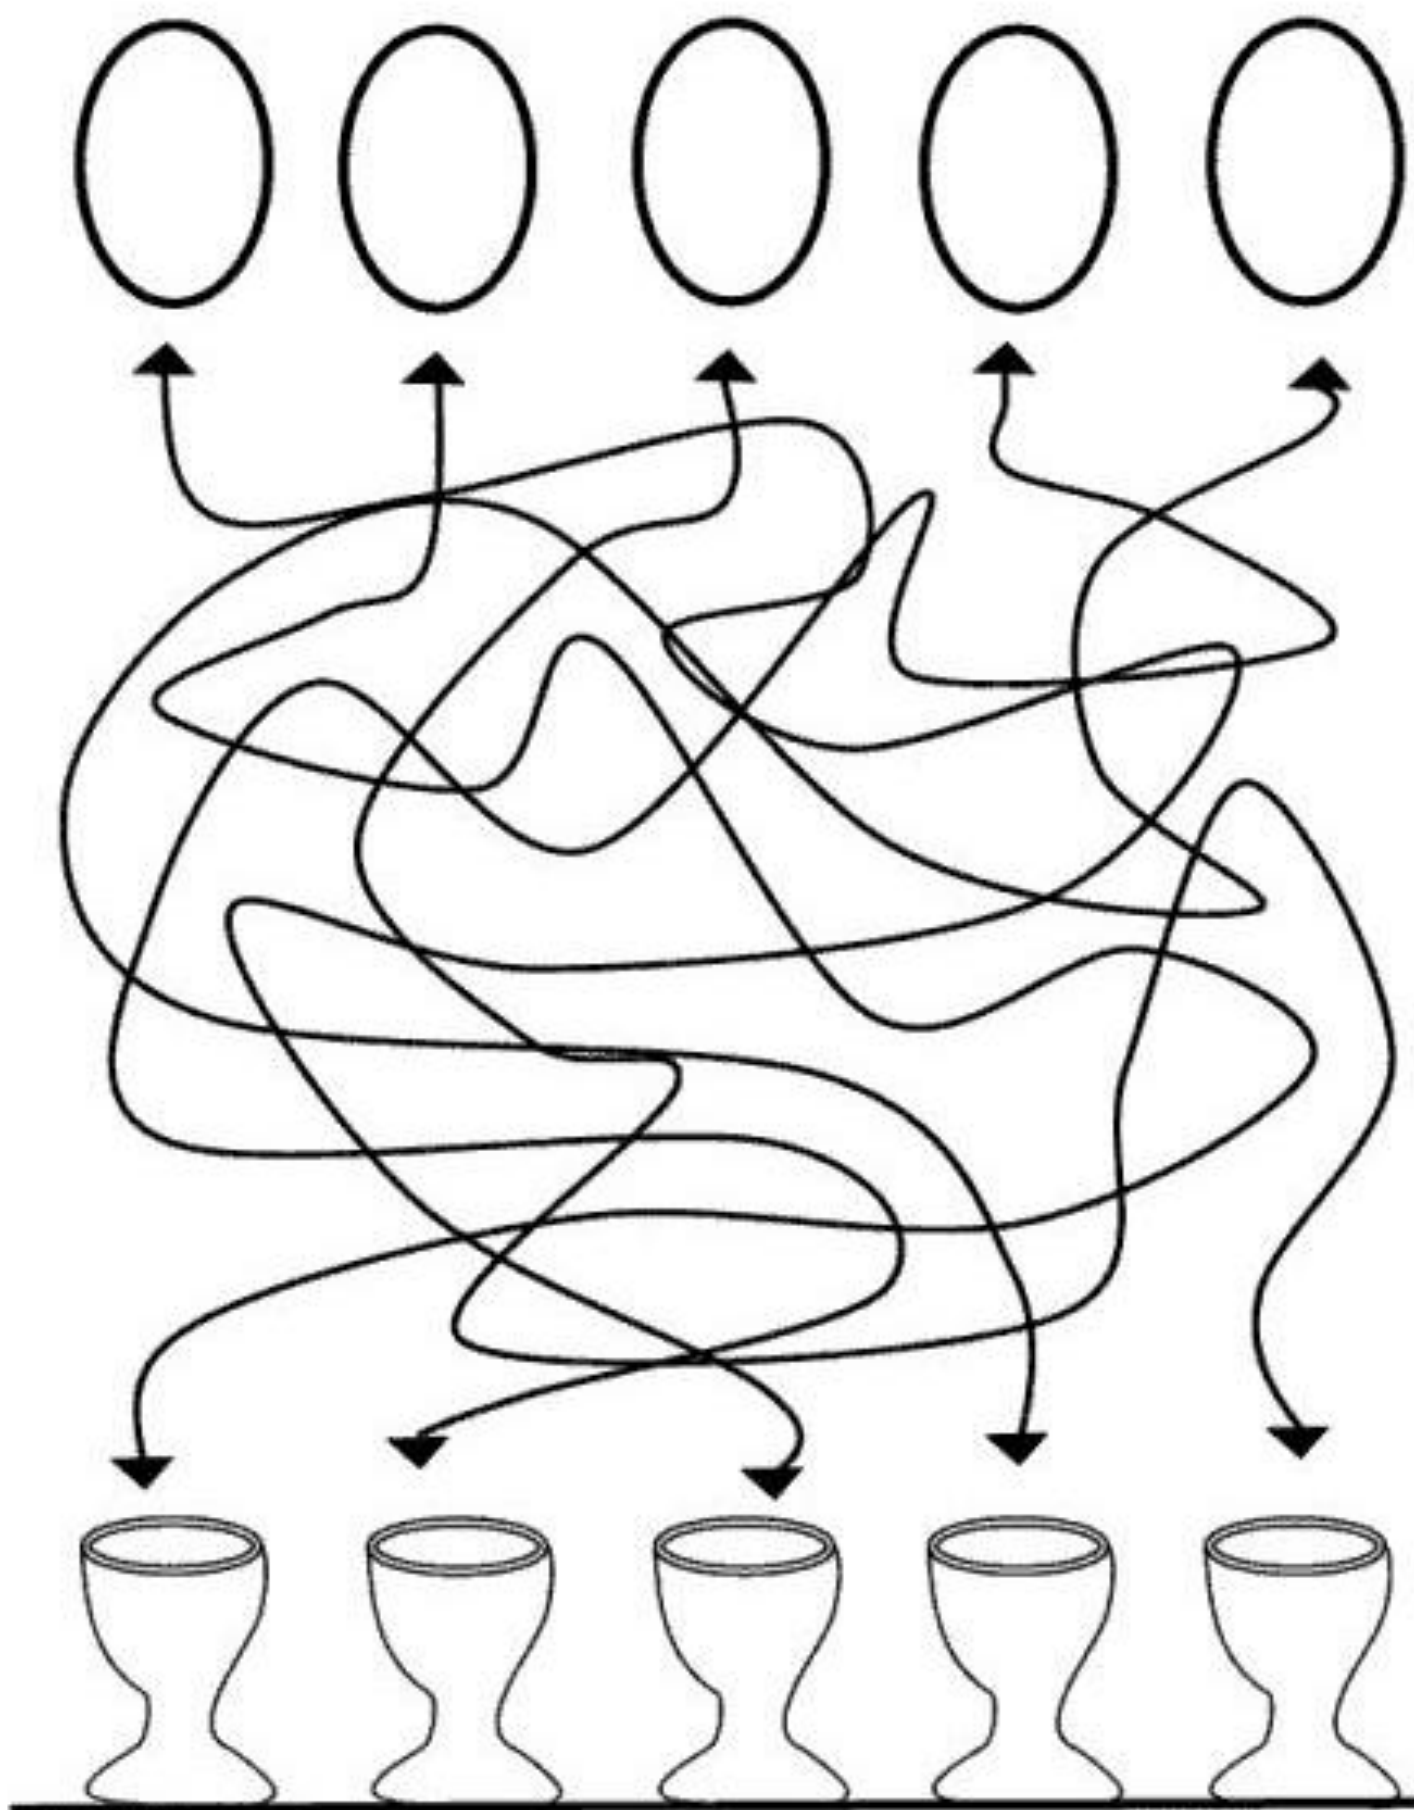

3. WERKBLAADJES

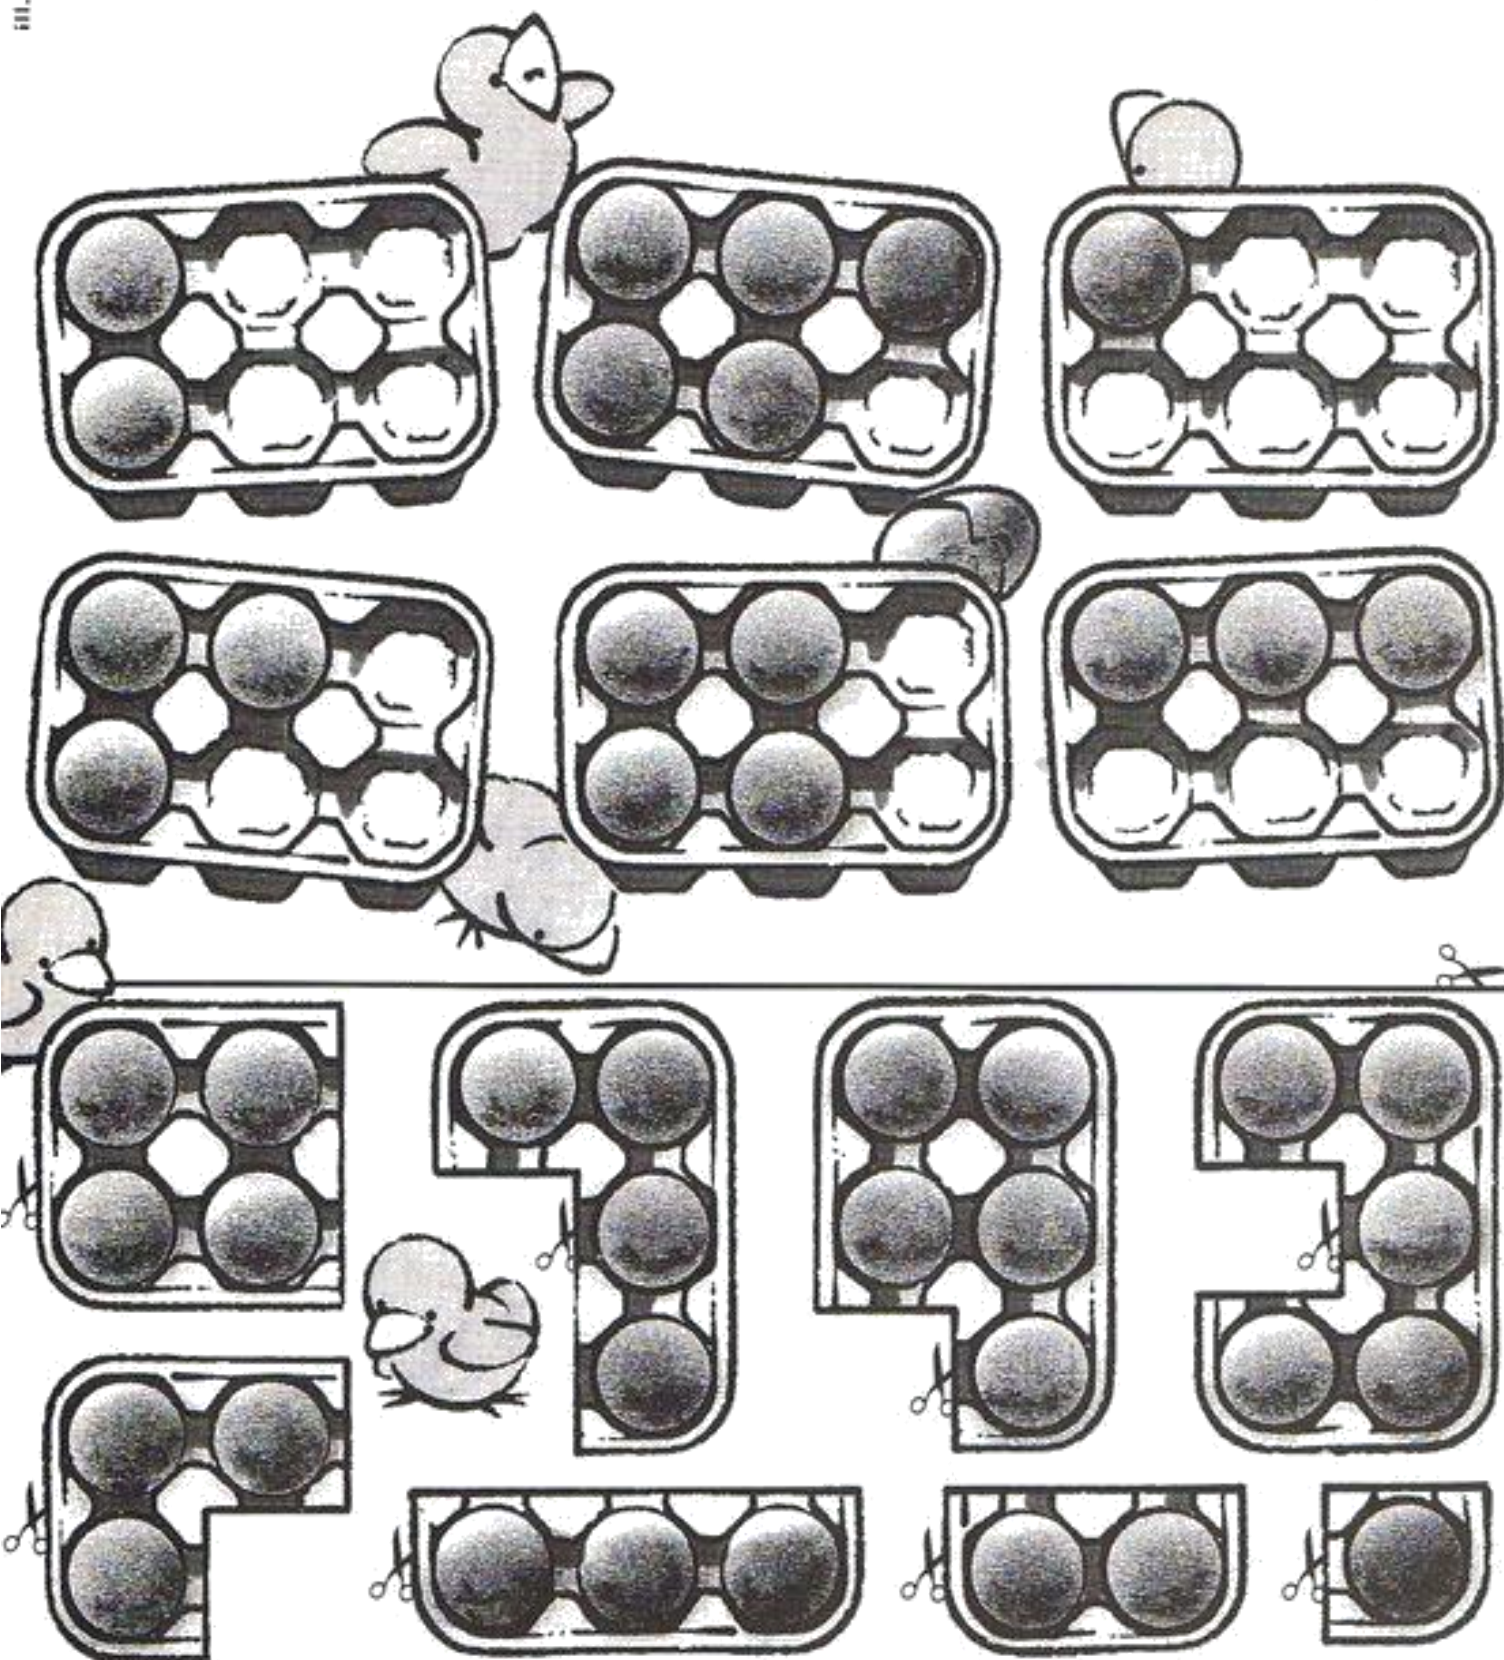

Welk ei hoort in welke eierdop?

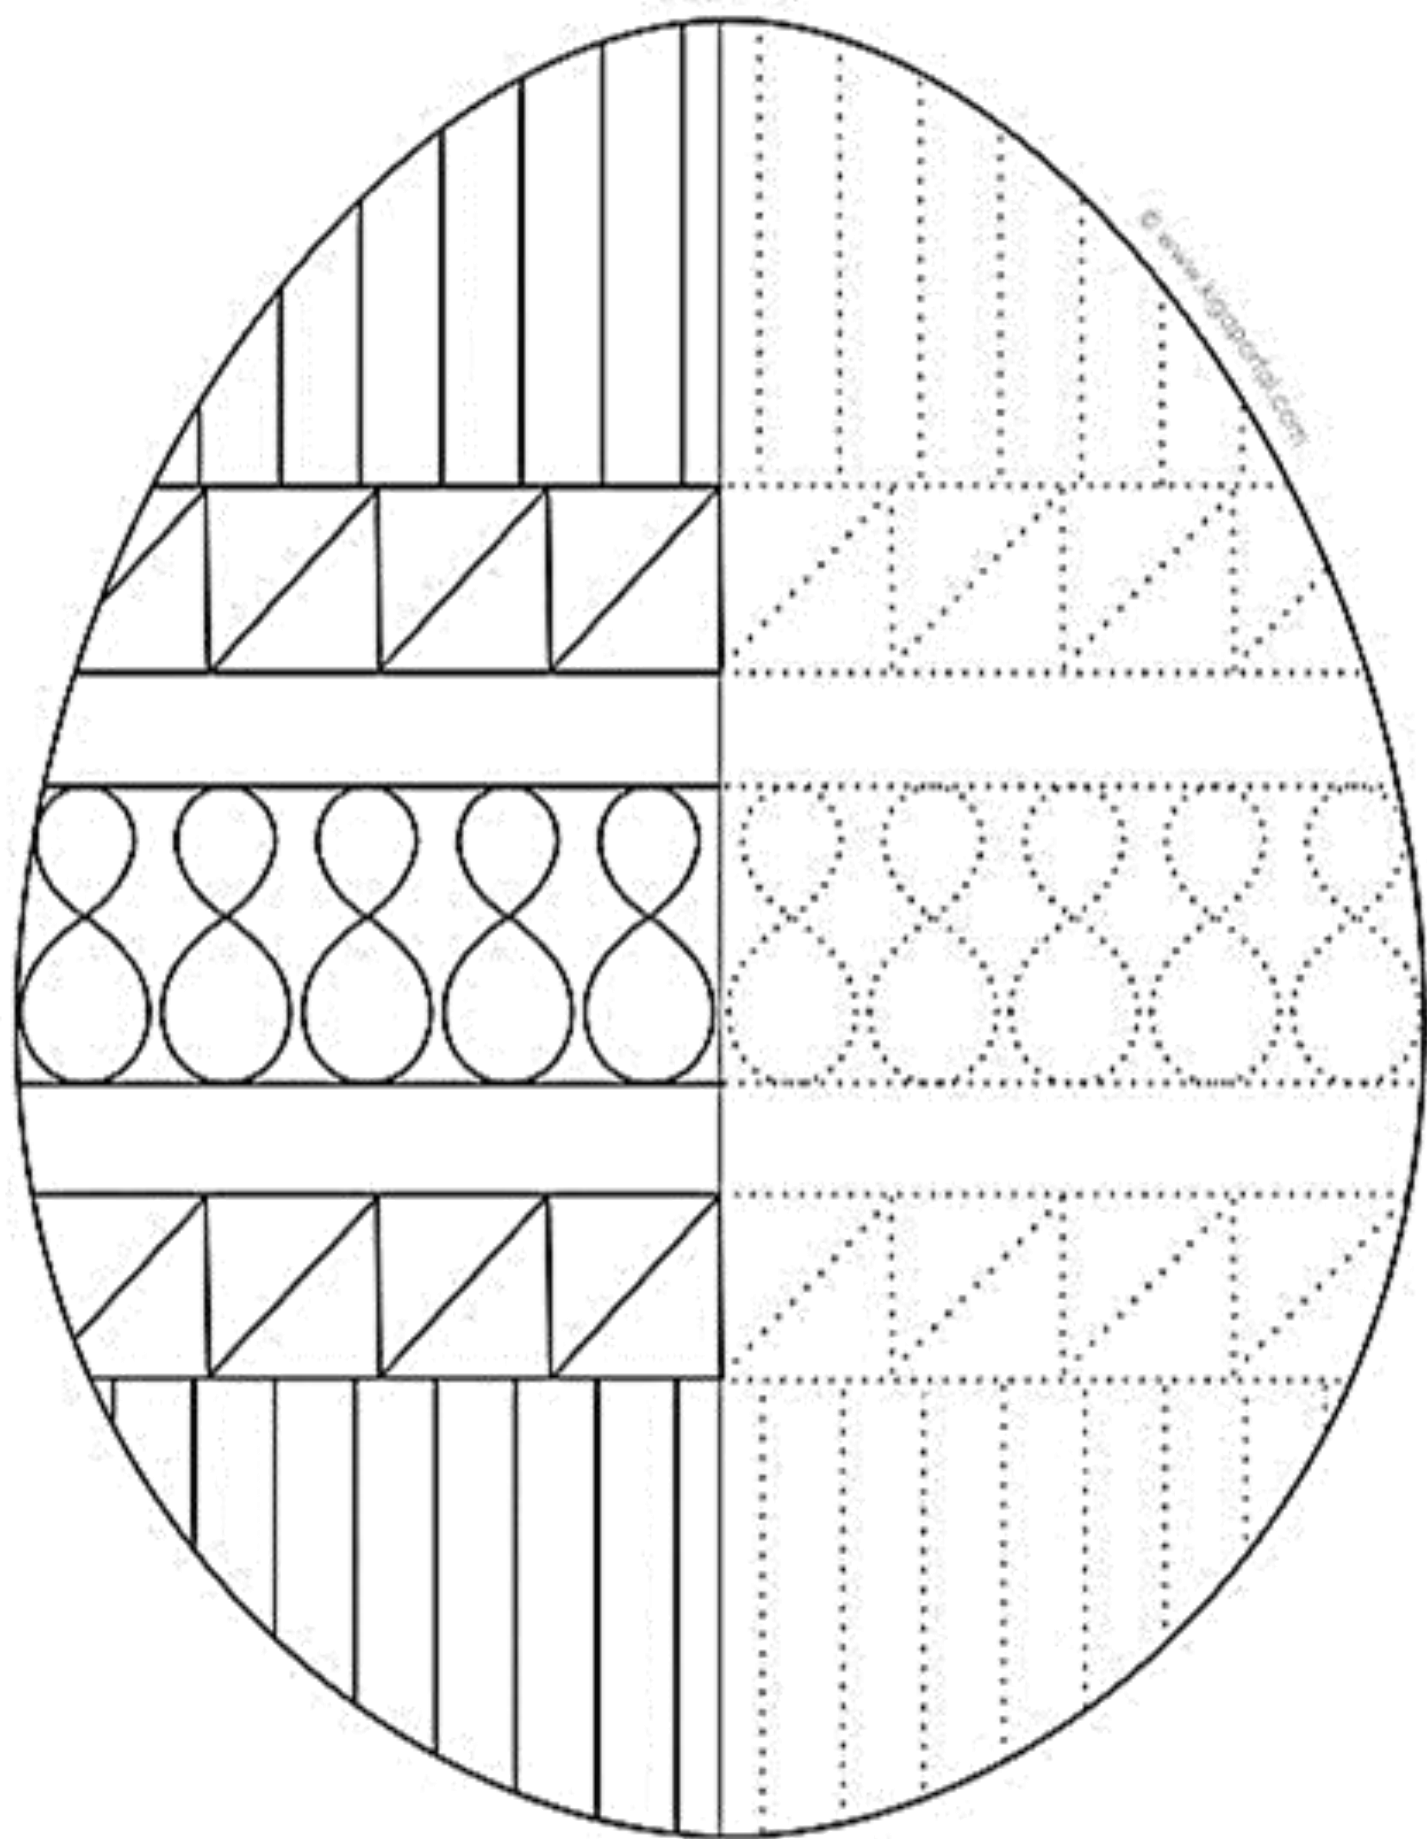

Geef het ei en de eierdop dezelfde kleur of versiering.

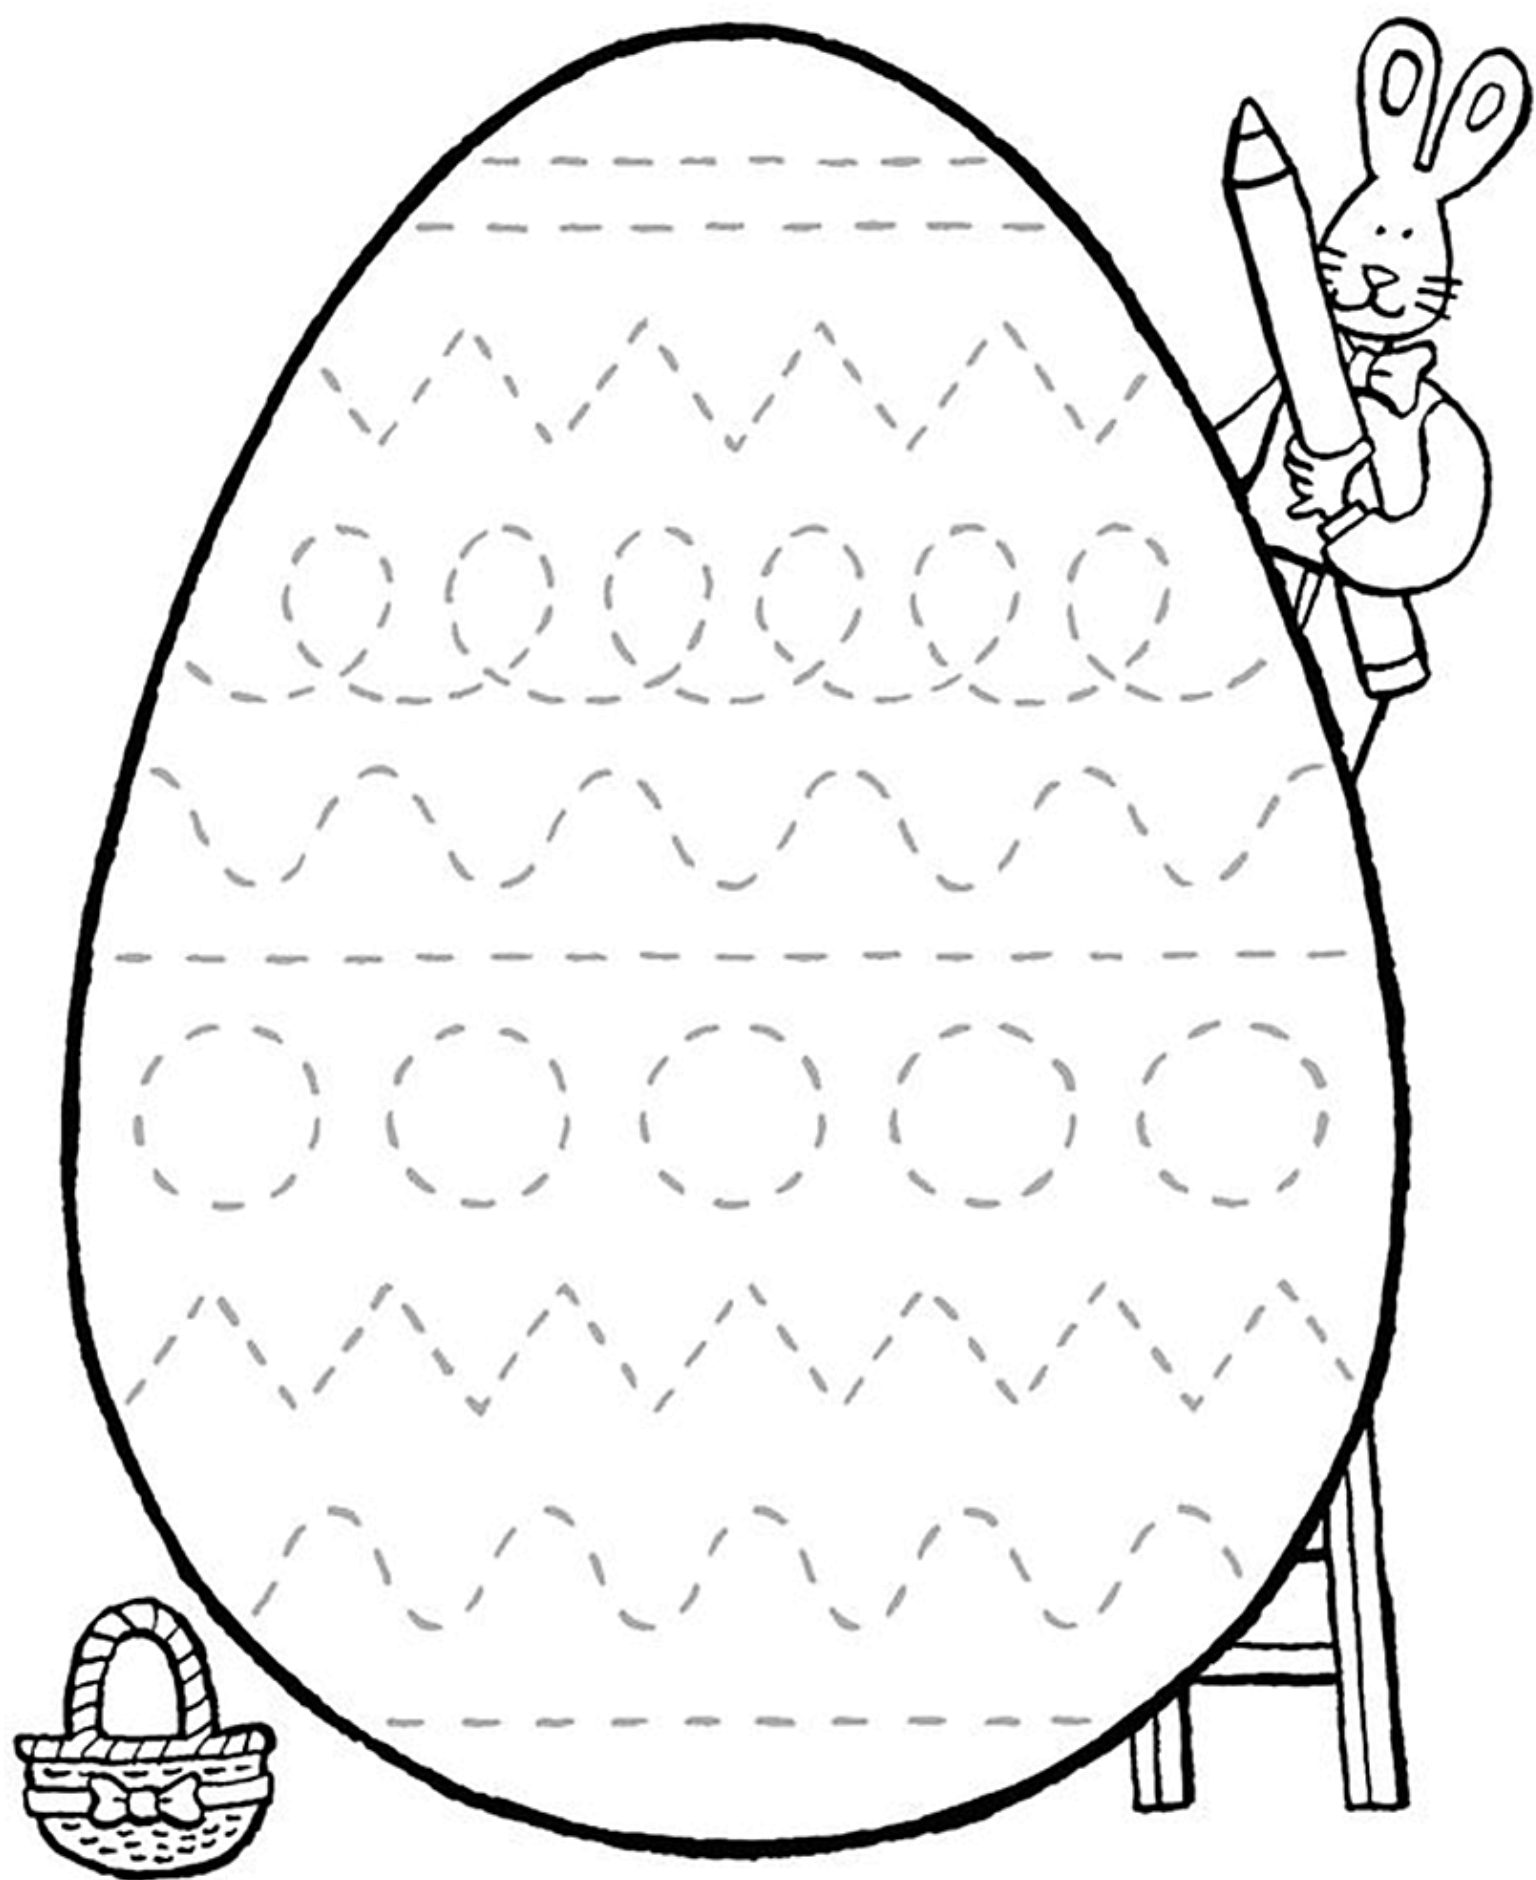

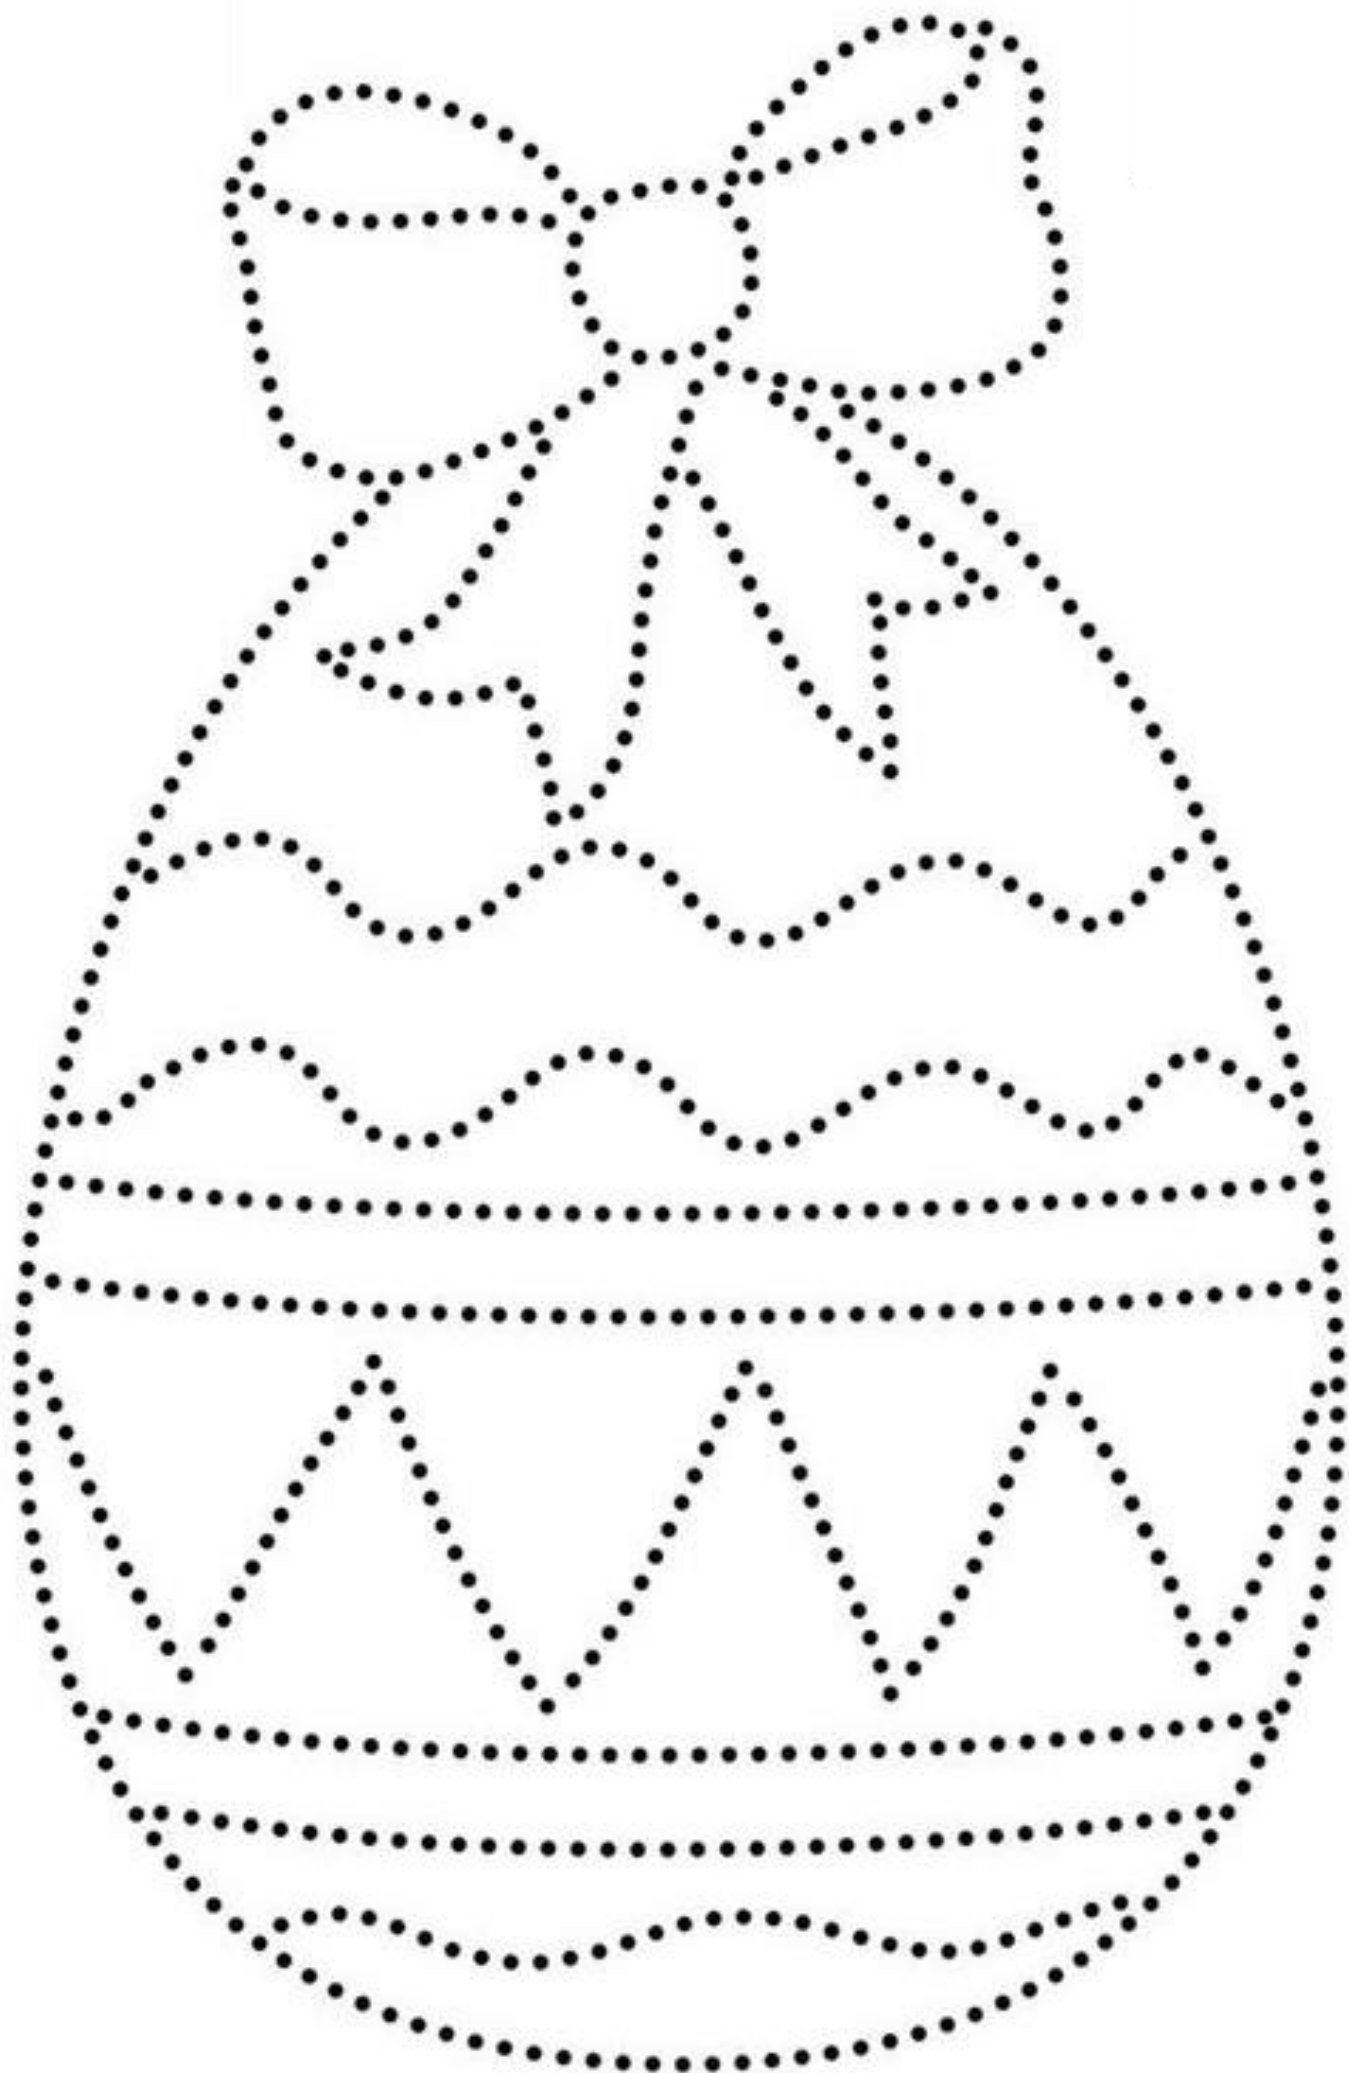

Voor iedere doos zes eieren

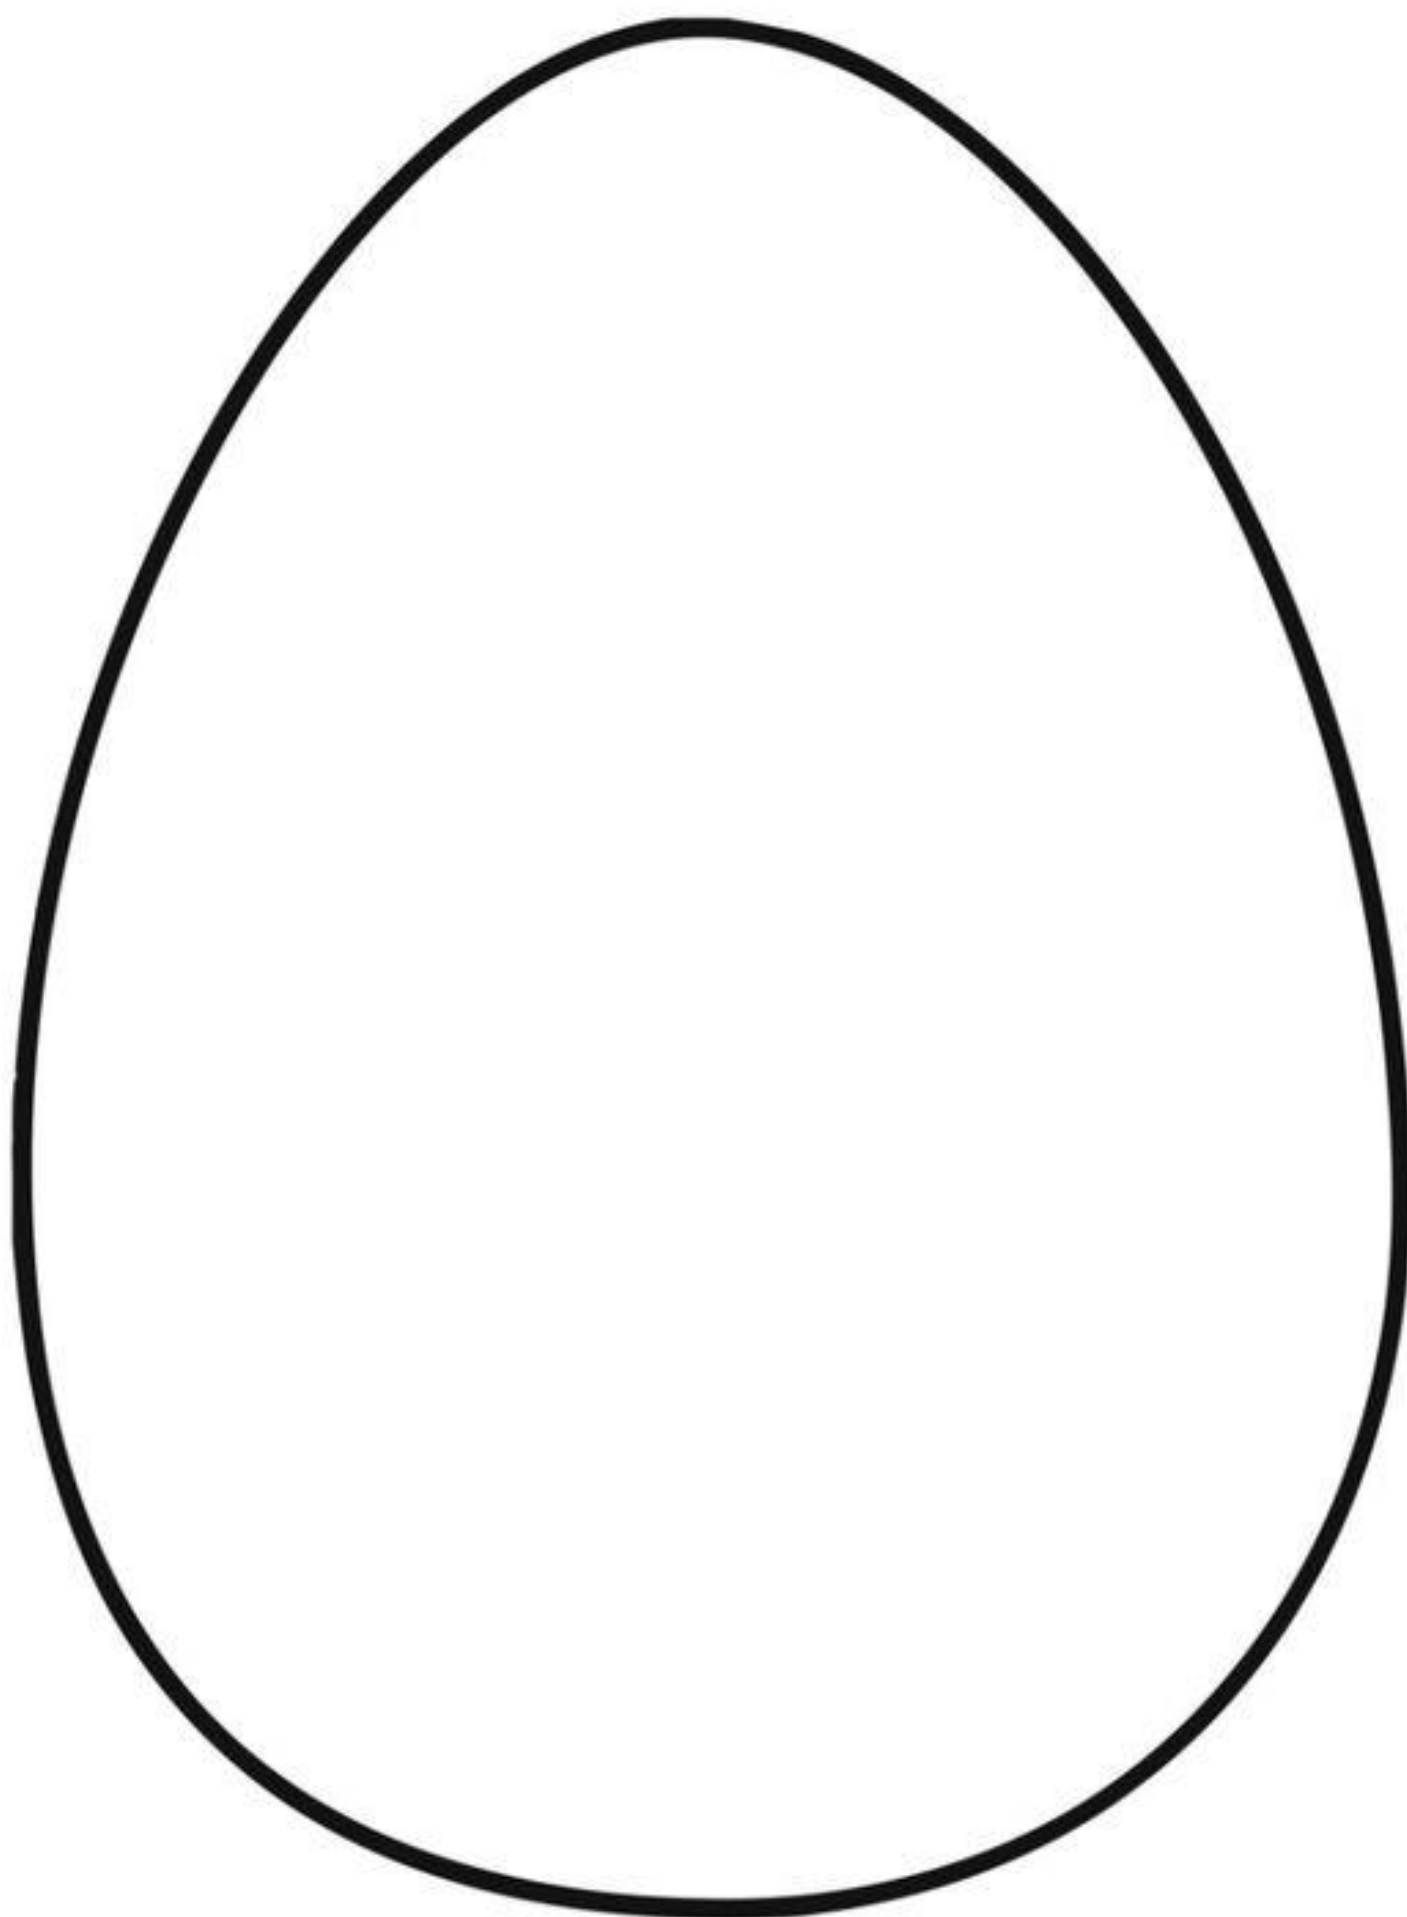

Knip  de kaartjes onder aan de bladzijde uit en neem een dobbelsteen. Gooi met de dobbelsteen , en neem het kaartje dat evenveel eieren heeft als het aantal ogen van de dobbelsteen. Leg nu het kaartje op de goede doos. Ga zo door totdat iedere doos zes eieren heeft.

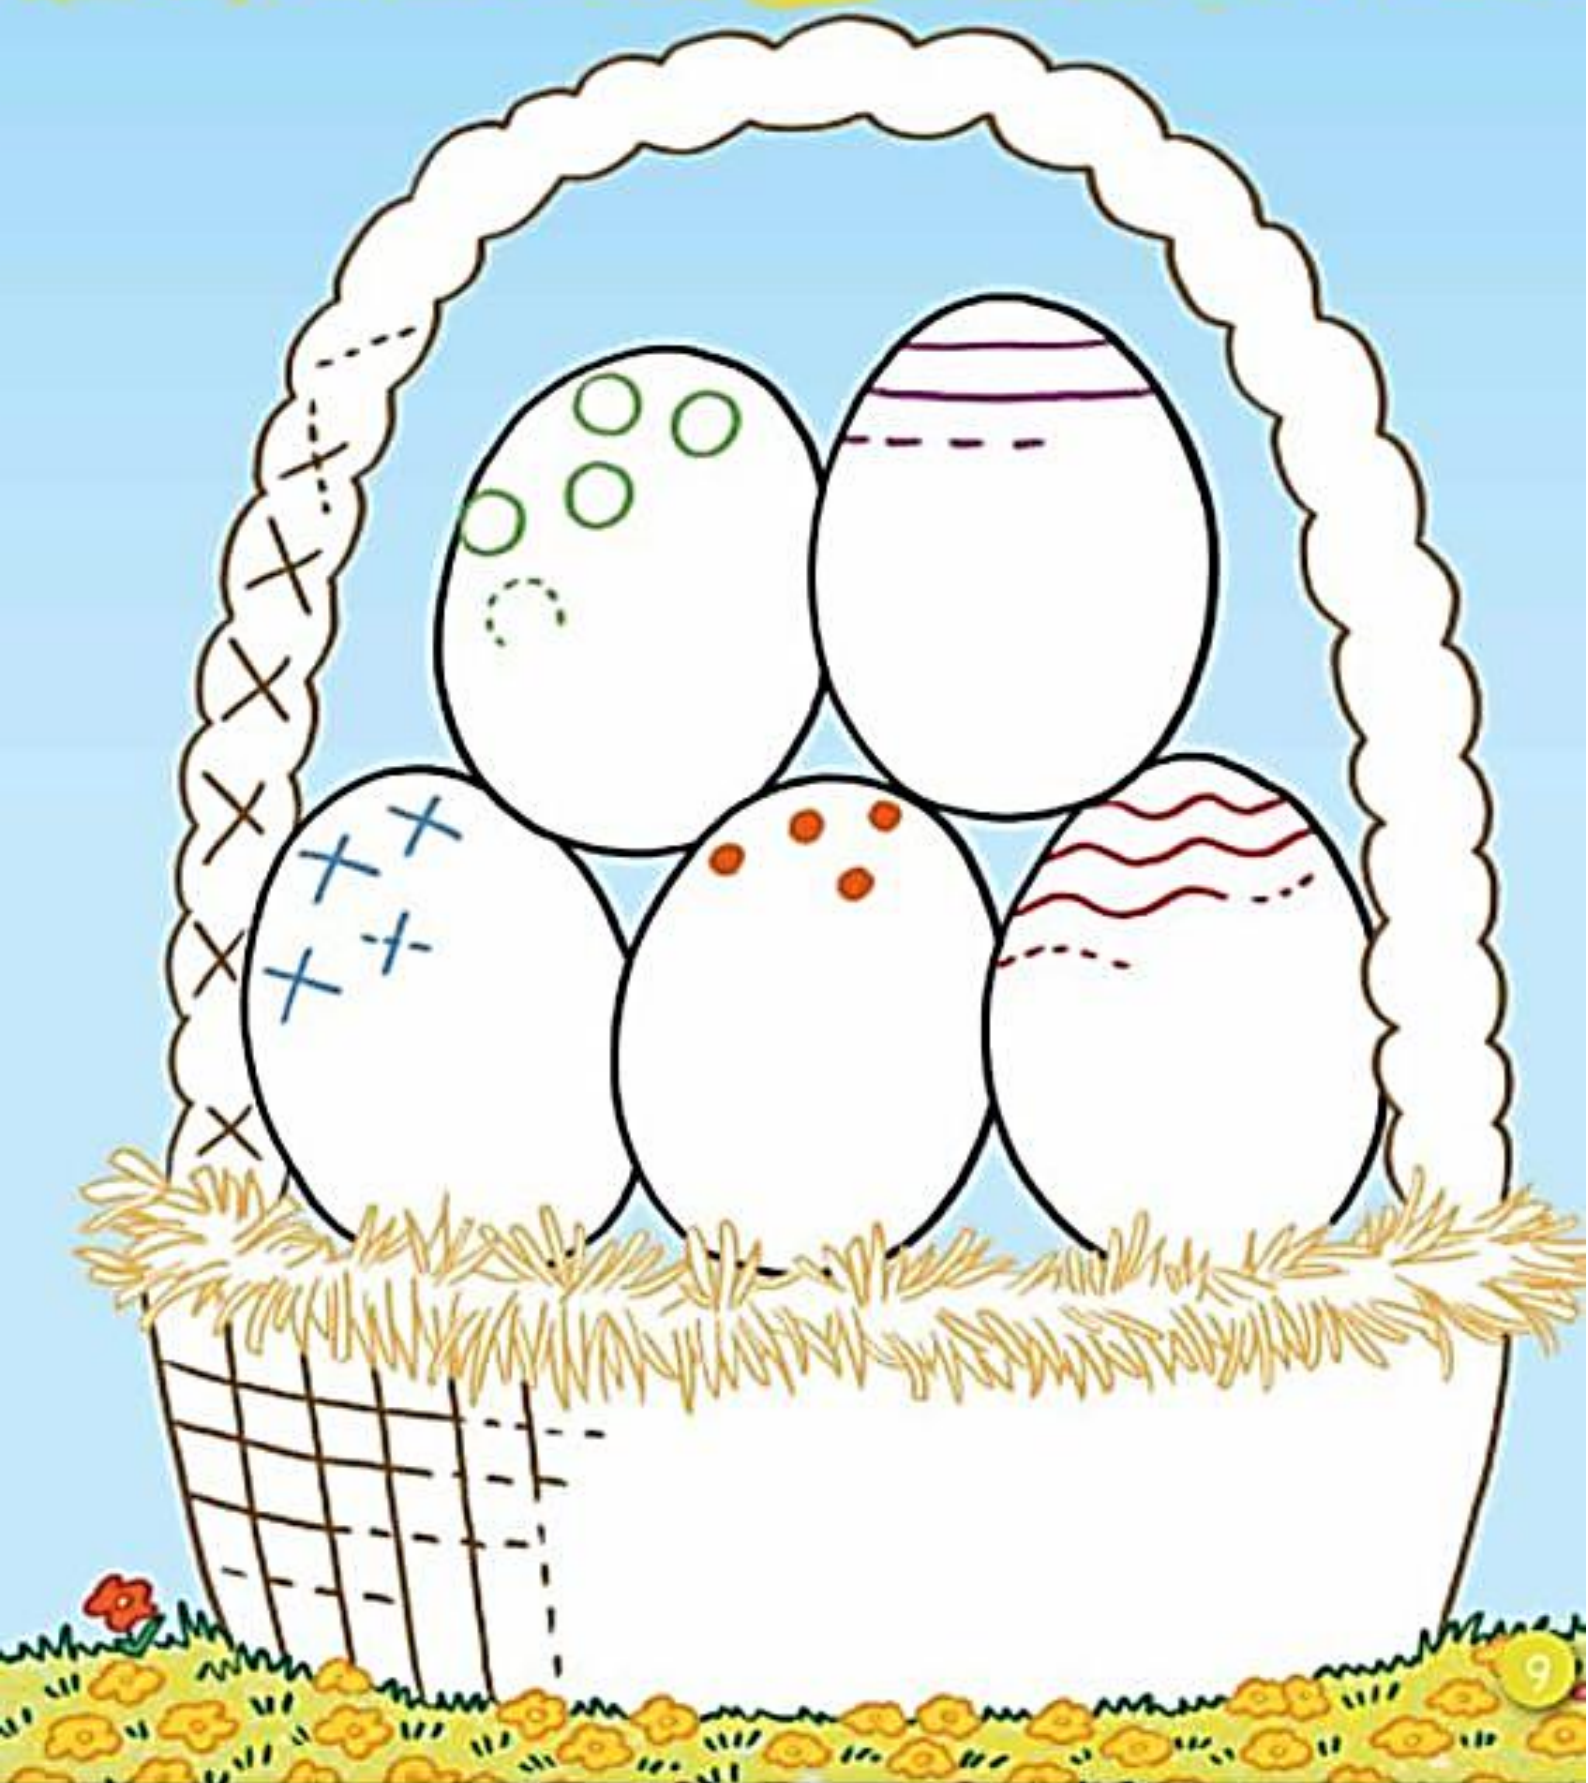

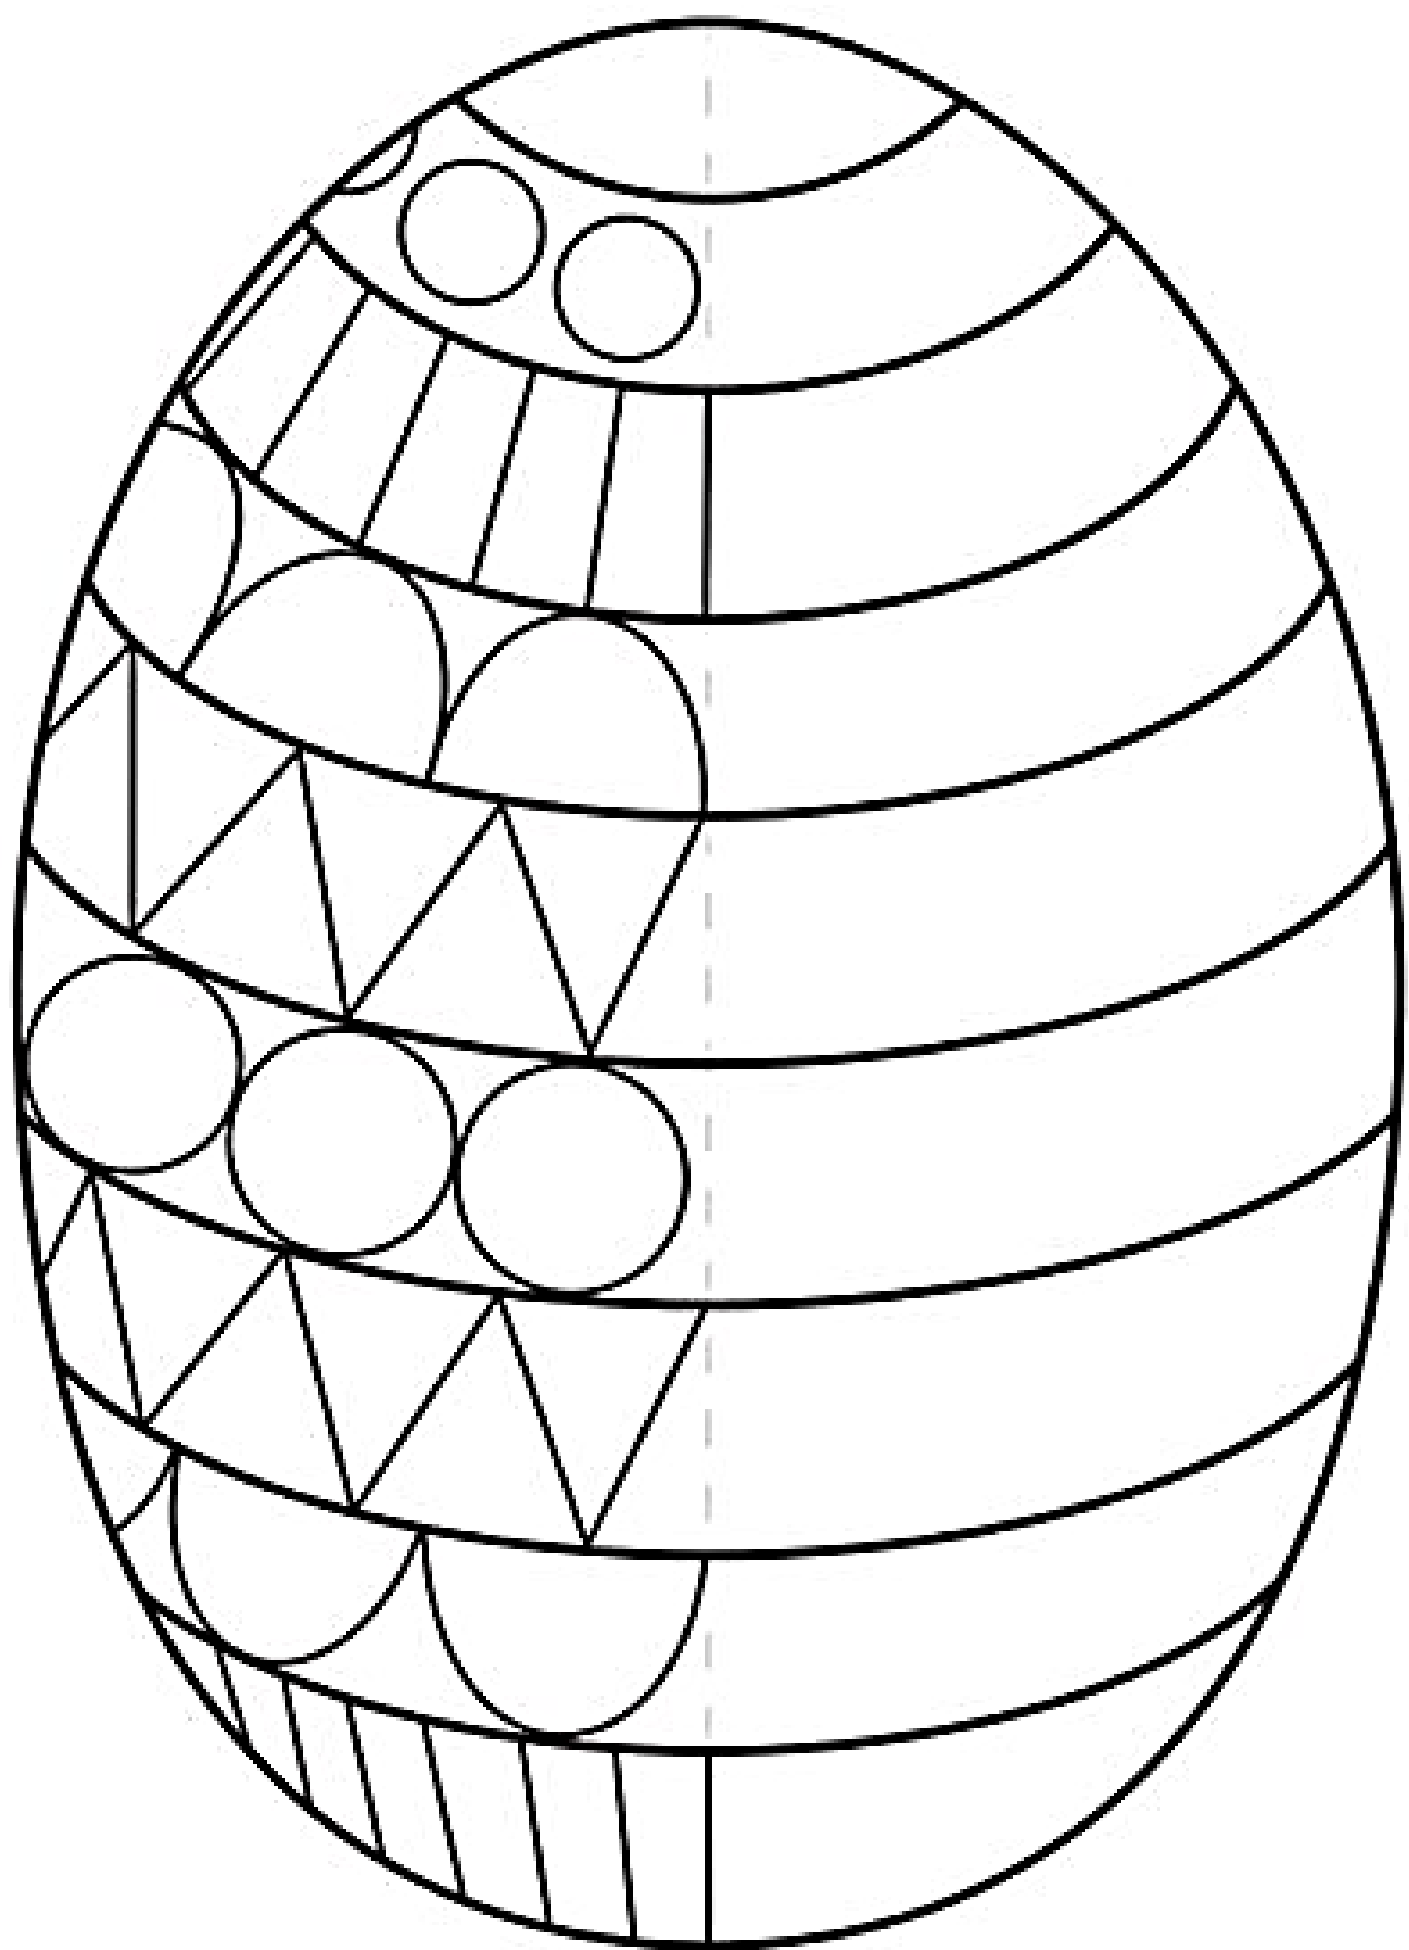

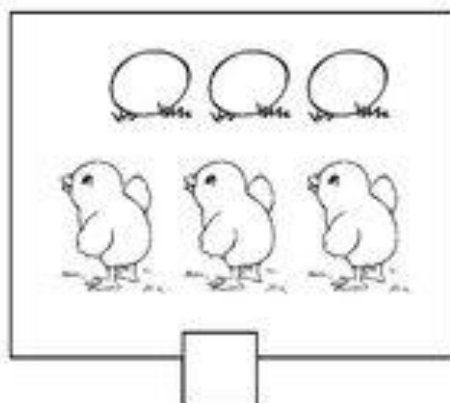

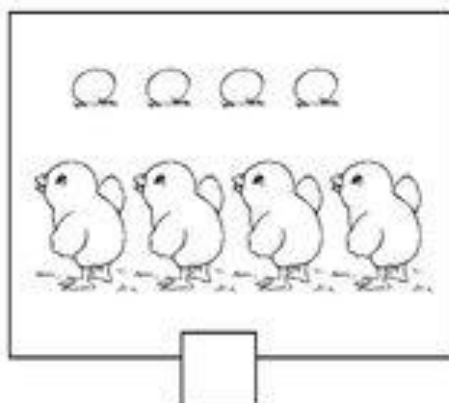

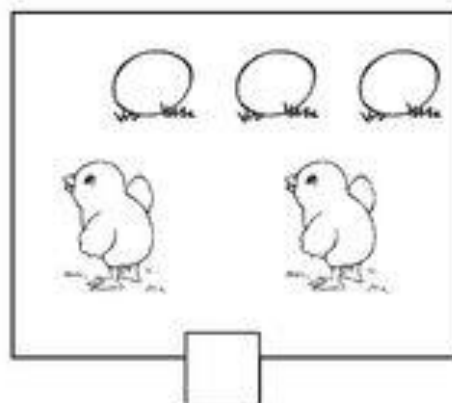

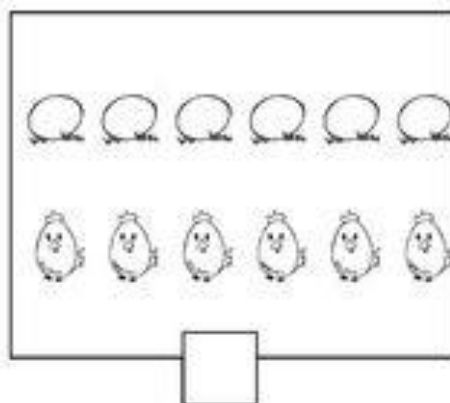

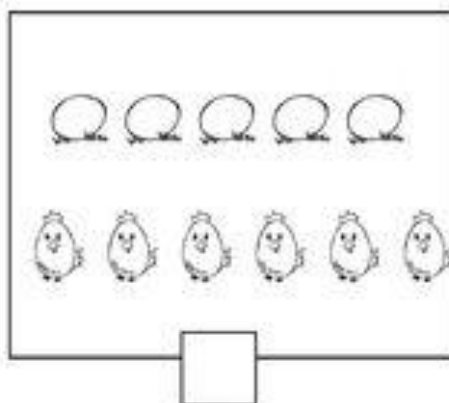

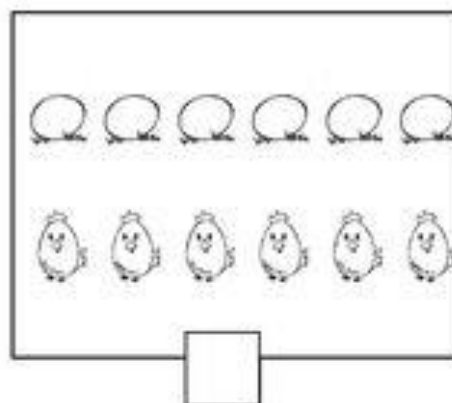

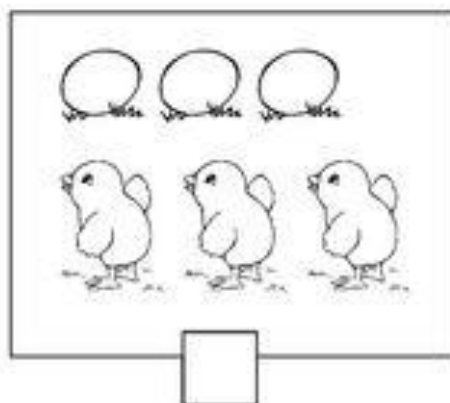

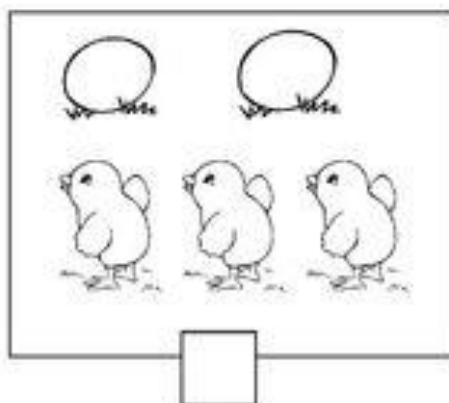

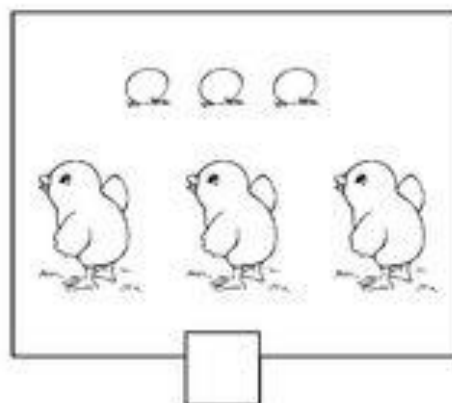

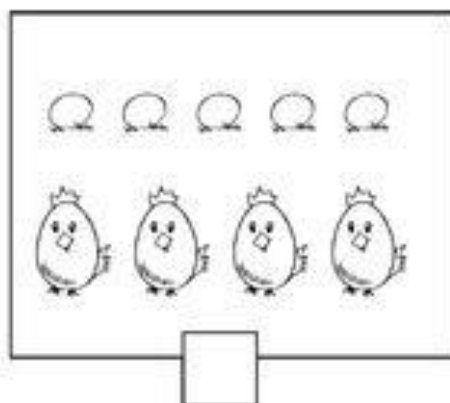

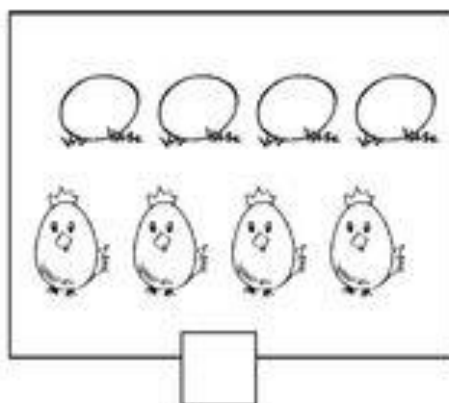

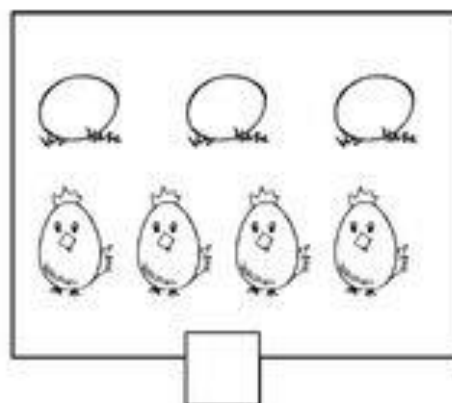

In het mandje

Maak de motiefjes op de eieren verder af. Gebruik voor elk motiefje een andere kleur. Maak het mandje verder af met bruine stift.

Waar zijn te weinig eieren voor het aantal kuikens? Zet een kruisje.

PASEN: Visuele Discriminatie

Welk plaatje hoort in de rij niet thuis? Zet er een streep onder.

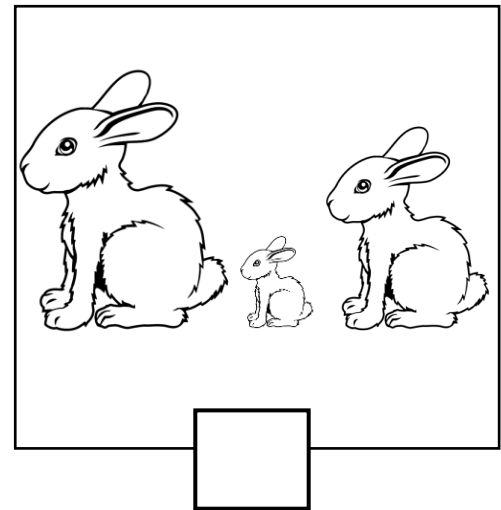

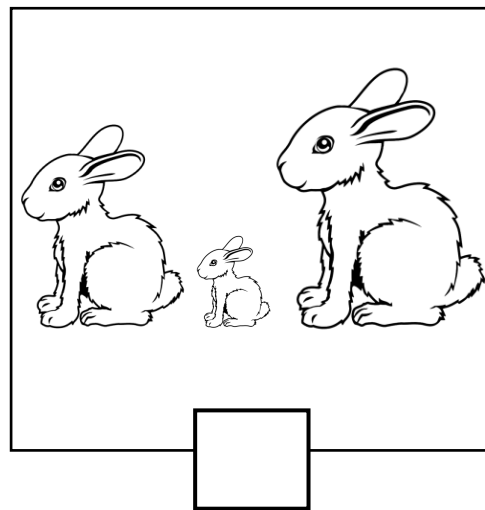

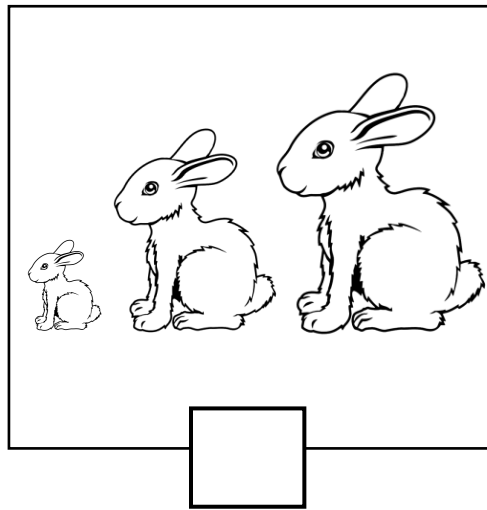

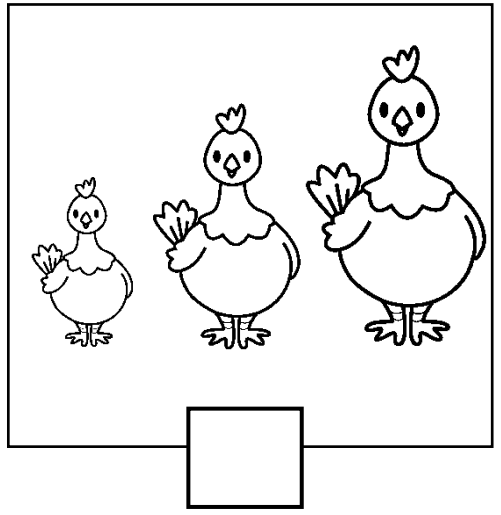

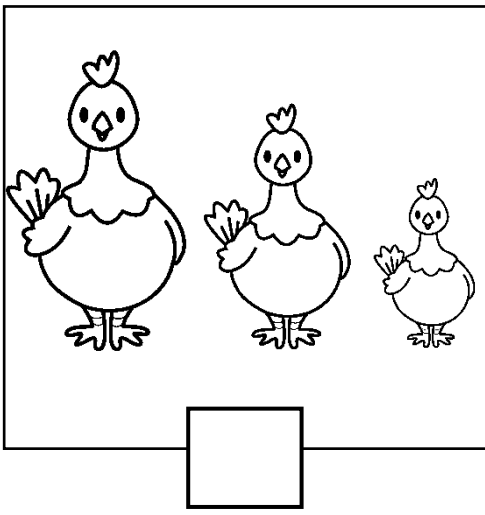

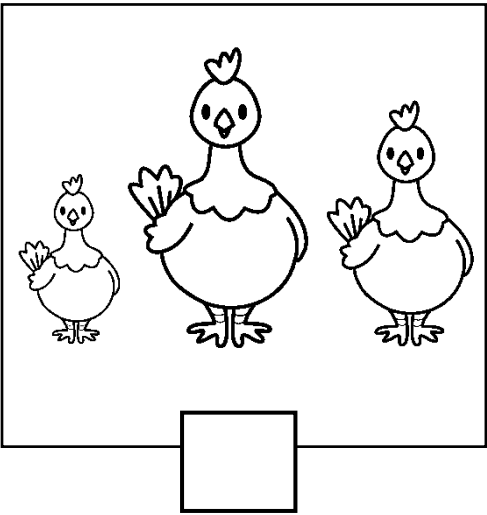

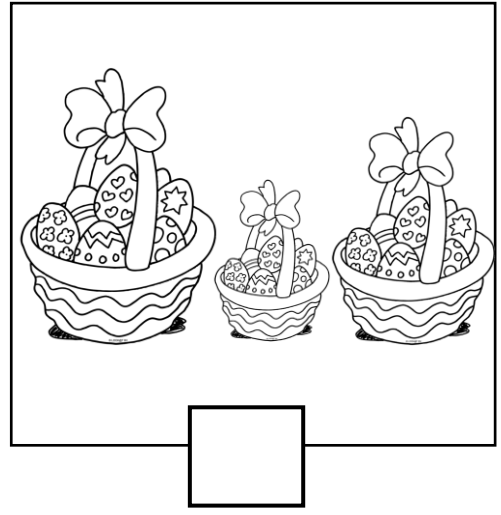

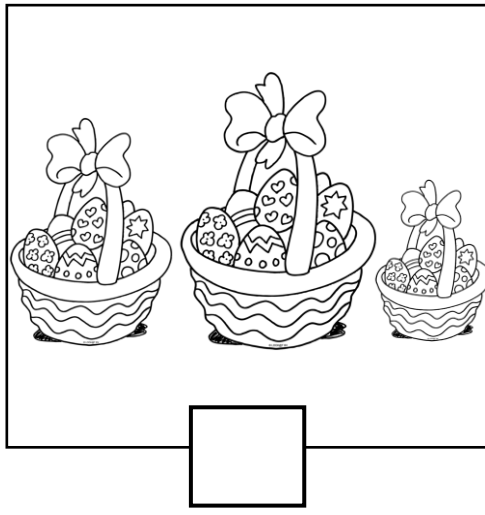

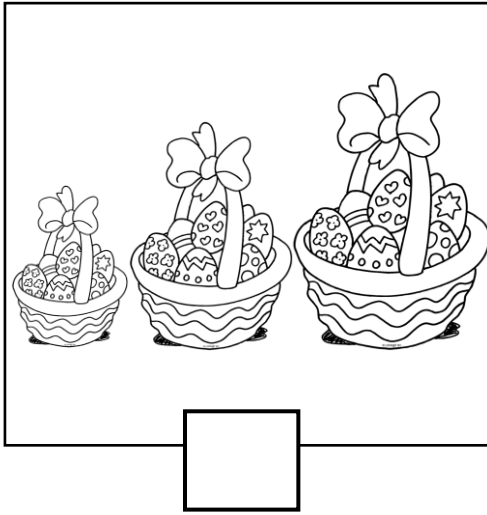

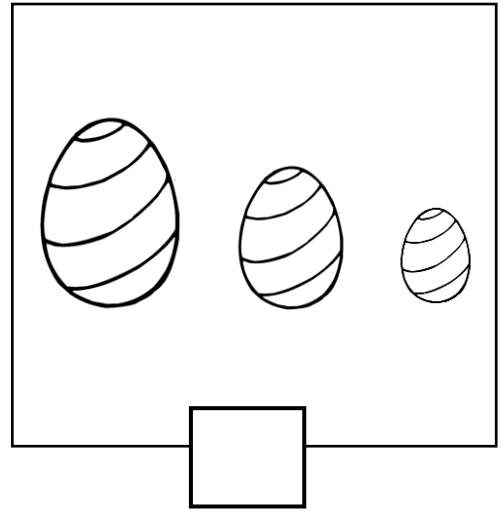

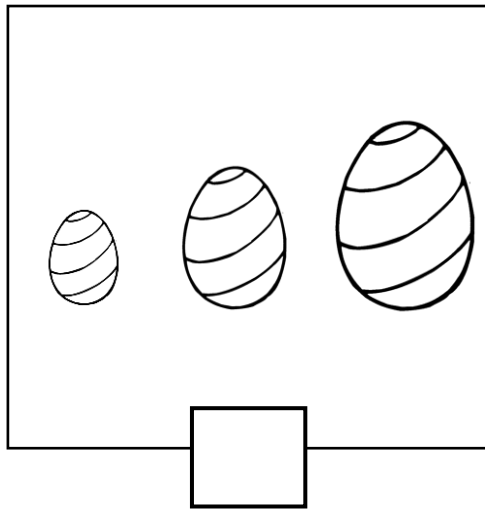

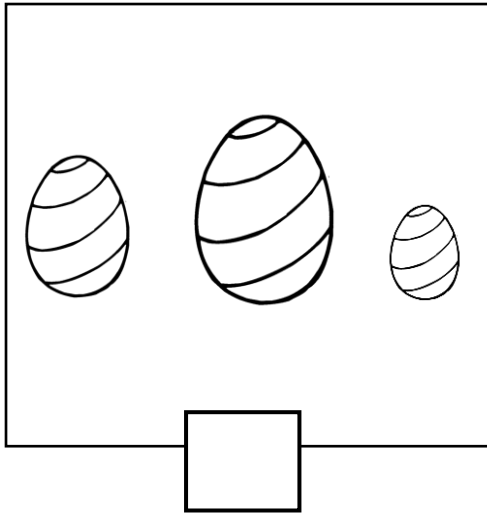

KleuterArchief.nl

Seriëren.

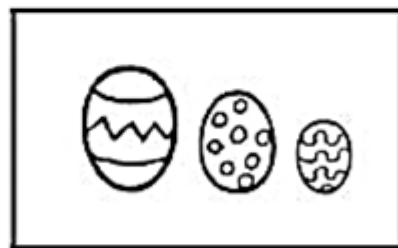

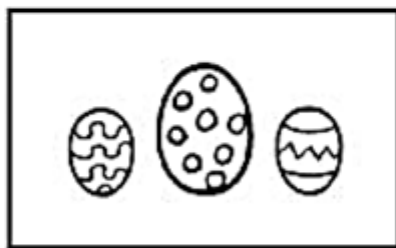

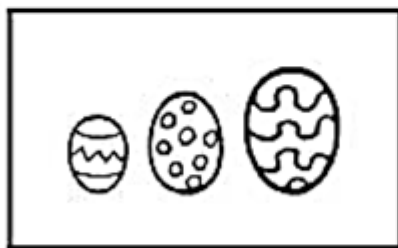

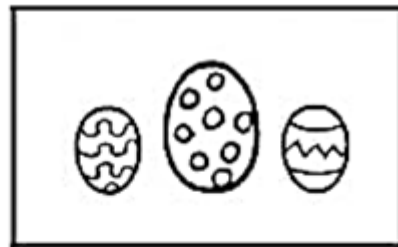

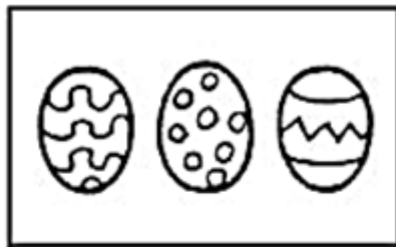

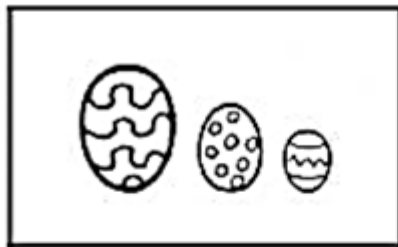

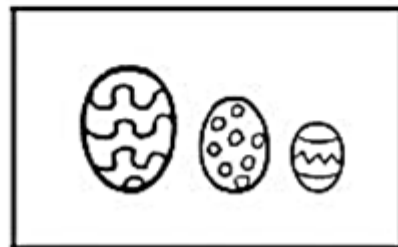

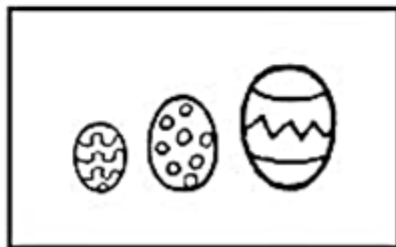

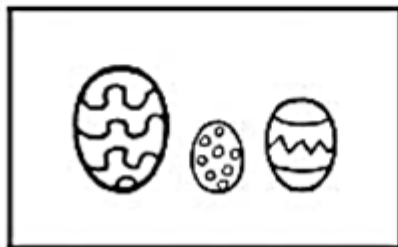

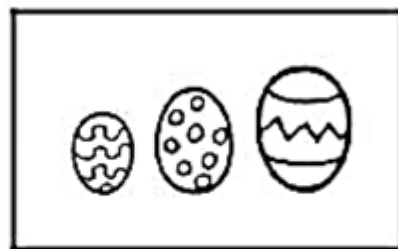

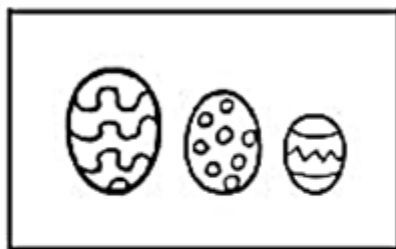

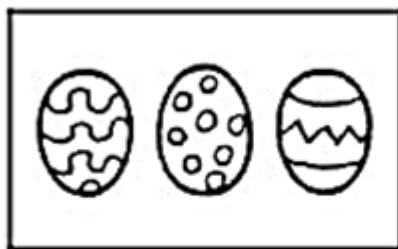

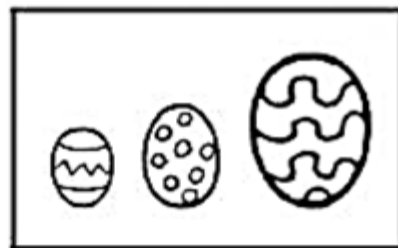

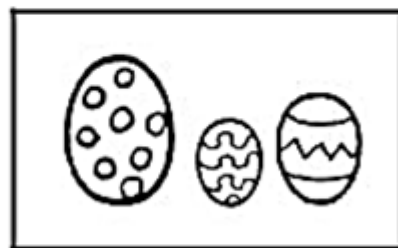

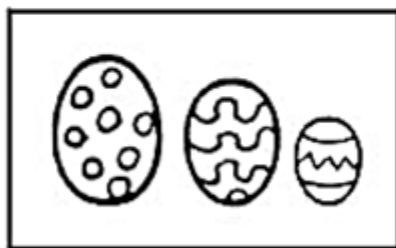

Waar zie je van klein naar groot? Zet een kruisje.

PASEN: Ordenen (Van groot naar klein)

Waar zie je de eieren van GROOT naar KLEIN? Zet er een streep onder.

 kijk goed en zoek

 kleur de tekeningen in de juiste kleur
